- 8-base curve of the lens extends around face for more than 180° of coverage without side shields that can block peripheral vision.
- Easy snap-out, snap-in lens replacement.
- Soft vinyl nosepiece prevents slippage and adjustable temples provide all-day comfort.
- Scratch-resistant lens blocks more than 99.9% of UV-A and UV-B light.
- Meets or exceeds ANSI Z87.1 standard CSA Z94.3 certified.

## RX-100 The first mono-lens Safety reading Glasses!

Until now you have only been able to get traditional style reading safety glasses, or stick on lenses. Elvex RX -100 is the first bifocal safety glass with a dual curvature mono-lens and integrated side shields.

According to the 2000 U.S. census there are just over 70 million Americans between 40 and 65 years of age.

All of these individuals will require reading glasses, and a large proportion of them will need reading glasses in combination with protective safety glasses in combination with protective safety glasses.

Elvex RX-100 is meeting an unfulfilled need!

- Available in the following bifocal powers: 1.0, 1.5, 2.0, 2.5 and 3.0
- Temples adjust to four different lengths.
- Temples have angle adjustment for perfect fit.
- RX-100 is priced below the cost of traditional reading safety glasses or even the stick on reading lenses.
- Industrial buyers report cost savings exceeding \$100.00 per user with RX-100.
- Patents have been applied for this new concept.
- Tested to ANSI Z87.1, CE-EN-166, AS/NZS 1337:1992

**RX-100-1.0 Reading safety glasses with +1.0 Diopters**

**RX-100-1.5 Reading safety glasses with +1.5 Diopters**

**RX-100-2.0 Reading safety glasses with +2.0 Diopters**

**RX-100-2.5 Reading safety glasses with +2.5 Diopters**

**RX-100-3.0 Reading safety glasses with +3.0 Diopters**

RX-100 is also available with grey lenses.

To order, specify model number

as above, followed by the letter G. Example: RX-100G-2.0

Now available in blister packaging, with micro-fiber protective drawstring bag!

Order information for blister packaged version:

RX-110-1.0, RX-110-1.5, RX-110-2.0, RX-110-2.5, RX-110-3.

# Mailite® Stainless Steel Mesh Gloves

Whiting & Davis Product are constructed of high tensile-strength corrosion-resistant stainless steel rings, each ring is individually welded for maximum strength and flexibility. Providing the highest level of protection against cut, slash and laceration hazards in cutting operations. Stainless steel gloves are comfortable and easily cleaned. Straps are made from anti-microbial polypropylene fibers that inhibit the growth of a wide range of bacterial and fungal organisms. Gloves are easily reversible. Available in Thumb-and-two-finger and Full hand with side split. Both feature dome fastener with anti-microbial polypropylene strap.

## Face Mask with Ear Loop and Shield

Ear Loop and Tie-On Masks are made of soft, non-woven polypropylene. The 3-ply pleated design offers 0.05 micron filtration at greater than 99%. A full length flat aluminum wire forms comfortably to the nose and face to maintain an excellent fit for maximum filtration. Masks are fluid resistant and disposable. The Ear Loop Mask fits snugly around the ears with elastic loops. Tie-On Masks are secured with two pair of polypropylene ties. Both styles of masks are offered with ultra-protective eye shields. This permanent anti-fog shield is optically clear and extremely lightweight. The shield offers full peripheral vision even when worn with prescription glasses. MASKS ARE LATEX FREE. Price per bag, 25 mask per bag.

## RS0012 OV/AG N95 Particulate Respirator w/exhalation Valve

- \* Provides relief from the irritating effects of nuisance odor, acid gases, hydrogen fluoride and ozone below the PEL.
- \* Heavily loaded with the highest quality activated carbons to provide the longest lasting relief times.
- \* Strong, stapled headstraps for long life and comfort.
- \* New low profile design and Sure-Fit® triangular nose cushion of soft closed cell foam, provide exceptional fit and worker comfort.
- \* New LPD (low pressure drop) valve designed for increased worker comfort.

10 respirators/box · 10 boxes/case

Price: 1 Box \$29.00 6 Box \$26.95

## RS0013 P95 Particulate Respirator

- \* NIOSH P95 approved for all oil and solid particulates.
- \* New LPD (low pressure drop) valve for greater ease of breathing, cooler feel.
- \* Soft, closed-cell foam full face seal provides exceptionally comfortable fit and enhances worker acceptance.
- \* Exclusive flame-retardant outer shell.
- \* Moisture-resistant construction resists softening, allowing longer life and maximum economy.
- \* Stapled, latex-free headbands for added durability.
- \* Low profile design for unobstructed field of vision.

10 respirators/box · 10 boxes/case  
Price: 1 Box \$19.00 6 Box \$17.95

## RS0015 E.2360 P100 Particulate Respirator

The 2360 P100 Respirator is 99.97% efficient against oil and non-oil based particulates making it ideal in environments where an OSHA substance specific standard applies (lead, cadmium, arsenic, MDA) as well as for pharmaceutical, manufacturing, conventional and nuclear power generation, welding, cutting and metal pouring applications. Provides all day comfort with a soft foam full flange, Ventex valve, stretch cloth and adjustable straps. Dura-Mesh shell resists collapse, even in heat and humidity and protects filter media. Meets NIOSH 42CFR84 Standard.

## 7190 N99 Respirator

With a large surface for complete filtering and easy breathing, the 7190 has a coaxial valve that eliminates heat and moisture build-up. Sold individually. Meets NIOSH 42CFR84 Standard.

## Clean-Trax™ Adhesive Mats Straight-Edge

Step One™ Adhesive Mats are made of thin layers of adhesive coated polyethylene film. These tacky layers remove particulates from shoes and cart wheels with each entry to the cleanroom. Our Step One™ Mats are designed to resist adhesive transfer, preventing sheet to sheet delamination. To prevent distortion and slippage, the adhesive backing secures the mat to the floor. Each mat has thirty numbered, removable sheets for quick and easy maintenance. The edges are not beveled to ensure that each sheet is contaminate free.

Color: White, Blue, or grey

Packaging: 4, 30-sheet/mats, cleanroom bagged, with outercase

Applications: Cleanroom, microelectronics, medical, printing, general maintenance.

**Zedlan™ -**

A unique formulation of ergonomic, "energized" foam developed by Crown

that is so revolutionary that it has been awarded a patent (Pat # 5,965,650). Zedlan has been formulated to offer the ideal balance of softness and resilience to properly prevent fatigue. Softness acts to cushion the worker's joints while the resilience acts to reduce work energy resulting in less fatigue. In addition to offering superior ergonomic qualities, Zedlan also offers the following benefits:

- Up to 3 times the resilience -vs- traditional foam matting
- Up to 3 times the abrasion resistance
- Maintains flexibility in cold temperatures (ie., concrete floors)

Crown's Zedlan is utilized in our Comfort-King and Worker's Delight family of products featured on this page.

**530 Workers Delight™ Deck Plate**

- A perfect blend of comfort & durability for tough, industrial environments
- Zedlan foam base offers unsurpassed fatigue relief
- Solid top, diamond pattern surface offers durability and slip-resistance
- Solid surface resists cuts & tears prolonging the mat's life
- Surface is permanently fused to high-performance Zedlan with Exclusive Fusion Technology. 3 year guarantee against delamination
- Safety bevels on all standard size and custom cut mats.
- Ideal for Med-Heavy Duty, Dry Industrial environments.
- Available in solid black or with yellow safety borders

# Spilfyter® Oil-Only Sorbents

When it comes to hydrocarbon-based spills, large or small, Spilfyter® has the solution. Oil-Only Sorbents repel water while absorbing hydrocarbons, making clean-up more efficient and easy.

- Distinctive “interlocking” sprocket bond eliminates separation of the fabric, while leaving more surface area to absorb liquids.
- Premium Sorbents are bonded every 4”; Economy Sorbents are bonded every 8”.
- All Pads are perforated vertically for a more flexible fit in tight, narrow spaces.
- All Rolls are perforated horizontally every 12”, and vertically down the center of the roll, enabling a customized fit for any size spill.

- Spilfyter® Rolls are ideal for use in assembly areas, production areas, around leaking machinery or along shore lines, where the length of the spill can vary.
- Simply roll out the required length and tear along the perforation for the right size.

Code #	Description	Qty	Price
M96	16”x300’ Single-Weight Roll	2/cs	168.00
M95	32”x300’ Single-Weight Roll	1/cs	168.00

**Spilfyter® All-In-One Sorbent.** This unique product gives you the option of using it in a variety of ways:

- PAD for small localized spills.
- ROLL for large coverage areas.
- SOCK for wrapping around machinery and equipment.
- WIPE for wiping tools or small spills.
- Create your own use!

The Spilfyter® All-In-One Sorbent has a reinforced top layer for added durability and is perforated horizontally every 12", and vertically zipped for easy folding capabilities.

Code #	Description	Qty	Price
DB914	16"x150' Universal Roll (Denim)	1/cs	88.00

Spilfyter® offers versatile Universal Sorbents which can be used for acids or bases and non-aggressive spills such as oil, coolants, solvents and water.

- Absorbs up to 16 times its own weight.
- For general and preventative maintenance.
- Use to absorb non-aggressive spills such as oils, coolants, solvents, and water.
- Use in, under, and around machinery and equipment for a clean workspace
- Premium sorbents are made with small micron diameter fibers that provide greater retention and strength
- Universal Pads & Rolls are manufactured with high-quality, fine fiber polypropylene.
- Premium Sorbents are bonded every 4"; Economy Sorbents are bonded every 8".
- All Rolls are perforated horizontally every 12", and vertically down the center of the roll, enabling a customized fit for any spill.
- All Pads are perforated vertically for a more flexible fit in tight, narrow spaces.

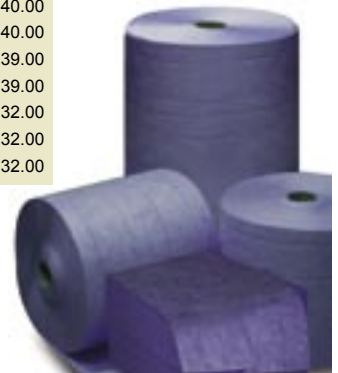

Use Spilfyter's complete line of Socks, Pillows and Drum Tops for containment and clean-up of nonaggressive spills. Use with Pads or Rolls for best results.

**General Purpose** - uni-directional strapping for general duty applications.

**Industrial** - Uni-directional strapping for boxes and pallets and bundling of medium duty applications.

**Heavy Duty** - Uni-directional strapping for the heaviest loads and extra strength bundling.

## Quality Packaging Tapes

### 1.6 MIL

21 lbs of tensile strength bopp film with synthetic rubber adhesive for light duty applications, packing bundling etc.

### 2.5 MIL

33 lbs of tensile strength bopp film with synthetic rubber adhesive recommended for large, bulky or heavy content applications.

### 3.7 MIL

45 lbs of tensile strength bopp film hot melt rubber adhesive extremely tough construction, for the most demanding applications.

Prices are per roll sold by the case

### OSHA SAFETY COLOR CODES

**Caution:**

Yellow - Physical hazards, poles, stairs and corners.

**Danger:**

Red - Fire Protection equipment and obstruction.

**Boundries:**

White, Blue, Green - Housekeeping & Traffic markings.

# Duct Tape

**General purpose Polyethylene** -coated cloth duct tape, natural rubber adhesive. Great for packaging, seaming, vinyl repair and patching. Silver color 7.5 mil thickness. 21 lbs tensil strength. 60 YARD ROLL

**Industrial Grade,** High quality poly-coated cloth with aggressive adhesive that bonds to almost any surface. Water and tear resistant. 16 colors silver, black, white, yellow, school bus yellow, light blue, dark blue, pink, red, burgundy, racing orange, tan, dark brown, light green, dark green and olive drab. PLEASE SPECIFY COLOR 11 mil thickness. 21 lb tensil strength. 60 YARD ROLL

**Premium Grade,** Excellent quality cloth tape. Good conformability and excellent resistance to moisture and tear. Aggressive adhesive bonds to almost any surface. Meets Mil spec PPP-T-60-E or Equiv. C.I.D. # Silver, Olive drab, White, Black PLEASE SPECIFY COLOR. 12 mil thickness. 26 lbs tensil strength. 60 YARD ROLL

\*Please specify silver, red, blue, olive green, yellow, black or white.

## Teflon® Coated Glass Cloth TFE

Teflon® impregnated glass cloth with silicone adhesive used as primary insulation in electrical equipment and heat sealing bars, gasket chute rails and roll covers, low friction surface abrasion resistant available with or without liner available in 3 Mil and 6 Mil.

## Teflon® Tape

Protect your poly bag and shrink wrap equipment. Acts as a protective barrier to hot wire contacts.

Silicone adhesive. 3" core.

- 2 Mil and 5 Mil selfwound with or without liner w/high temp silicone adhesive.
- Used in electrical applications, harnesses transformers Hi temp applications aircraft mold release.
- And guide rails and heat sealing Machines.

ATG adhesive reverse round wound transfer tape 2 mil. glass stabilized, solvent based acrylic adhesive gold paper liner 35 OZ adhesion -30F to 180F excellent adhesion to paper most plastic and metal films 1" core, fits standard ATG Gun. ATG Standard Tape Gun has a special pin wheel spool that allow complete use of roll with no waste, adjustable gear, easy to use. **ATG22700 1EA 22.95 6EA 18.00**

## Single Sided Medium Density Foam Tape

A closed cell PVC foam tape coated on one side with a high performance acrylic adhesive, with a siliconized paper liner. Excellent conformability, flexibility, strength and wear resistance. Excellent weatherability and chemical resistance. Applications are Gasketing, Air and Weather Seals, Vibration Control and Door Frames. Available in three thicknesses, 1/6", 1/8", 1/4", black color.

## Double Coated Cloth Tape

Double coated cloth tape is a woven cotton cloth, coated with an aggressive rubber adhesive on the liner side, and coated with a rubber adhesive on the exposed side specially formulated for clean removal from substrates. The product is supplied on an easy release polyethylene liner. APPLICATIONS Carpet installation where a more aggressive adhesive is required, Temporary mounting for assembly or machining operations, Print plate mounting. PRODUCT BENEFITS, Aggressive adhesive on liner side suited for adhesion to carpet, adhesive on exposed side leaves no residue upon removal. good shear resistance Total thickness 12 mils, adhesion thickness 5 mils on both sides

## Adhesive Transfer Tape

Glass stabilized solvent acrylic adhesive. Glass stabilization allows for lathe slitting and cleaner unwinding. Extra wide web 59" makes tape suitable as a laminating adhesive For foams or fabrics. 3 in core We carry 4 different options, 1.9mil (2.8mil thick) on gold siliconized release liner, 35oz adhesion, -30F to + 180F moderate adhesion for bonding, mounting to most surfaces. 1.9 mil (2.8 mil thick) on yellow siliconized liner 56 oz. adhesion -30F to + 180F high aggressive adhesion, bonds well to most surfaces papers, film, metals 1.9 mil (3.2 mil thick) on a brown siliconized liner, 75 oz adhesion -50F to +250F Highest tack, High quick tack and good shear strength makes this the best option for demanding bonding/joining applications 5.0 mil (4.2 mil thick) on a brown silicoized paper 64 oz adhesion -30F to + 180F Thick adhesive coating with High quick tack make this great for demanding textured Rough surfaces, used for core starting, paper, film metals and other web splicing.

## Heavy-Duty Polyliner Bags

- Premium low linear can liners, These liners are manufactured with the highest quality virgin resins, and will out perform liners from non-virgin materials. Color buff (Tan)
- Top quality resins.
  - Maximum film strength.
  - Puncture and tear resistant.
  - Virtually leak proof Star seal.
  - Wide range of strength and sizes.
  - Packed for easy stacking and storage.

Your components receive superior Faraday cage protection with Metallic transparent Static-Shielding bags. Durability insured with the exclusive outer coating. Excellent static shielding properties in a 3.22-mil bag with abrasion resistance. Contents easily identifiable. Meets or exceeds the static decay requirements of MIL-B-81705-C Type III.

# Pink Anti-Static Reclosable Bags

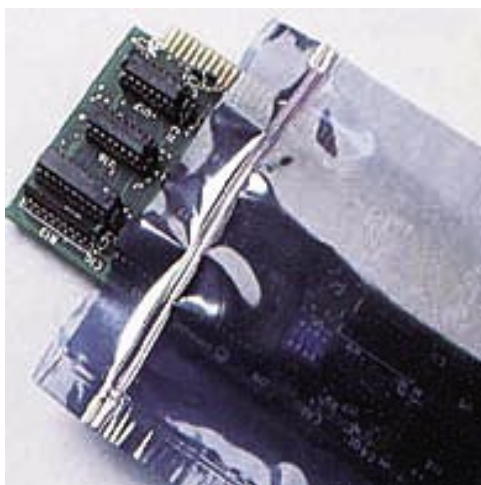

## 4 - MIL Polyethylene

- Meet electrostatic requirements of MIL-B-81705 Type II.
- Dissipate induced charges up to 5000 volts within two seconds.
- Keep electronic parts clean, dust-free.
- Easy to open and close seal.

# Reclosable Metallic Static-Shielding Bags

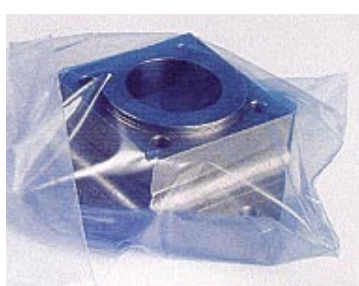

Ship, store and package static-sensitive parts in these reclosable bags. Heavy 3.22-mil with superior ESD shielding and FaradayCage protection. Your products are kept safe from static discharge damage, dust and moisture. Zipper top allows for secure open and close, seal bags meets or exceeds the static decay requirements of MIL-B-81705-C Type III.

# VCI Anti-Rust Zipper Poly Bags

The slow release vapor protects the exterior as well as the hard-to-reach interior surfaces. These bags are zipper sealed and will provide 24 months of long term protection and overseas shipments.

After Metals Protected: Carbon steel, stainless steel, copper, brass, aluminum, silver, galvanized steel, solder and silicone steel. VCI-anti rust poly bags are 4 mil thick.

# Silicone Tubing

Materials comply with FDA standards. Resist extreme heat variations, -100F to +500F. Translucent color, stretchable, odorless and tasteless, resist UV, ozone, moisture and gases, good electrical properties. NSF51 LISTED. (NATIONAL SANITARY FOUNDATION) Used in Appliances, Food Service, Medical, Dental Laboratory and Insulated Slewing.

# LLD Polyethylene

Materials comply with FDA standards. Food grade linear low density polyethylene. Tight tolerances, good solvent resistance. Used in the transfer of Air, water and food products, also used as light vacuum line.

### Features:

- Materials comply with FDA specifications
- Natural Linear Low Density Polyethylene Tube
- Tight Tolerances
- Good Solvent Resistance
- **Good Stress Crack Resistance**

### Applications:

- Air, Water and Food Transfer
- Light Vacuum Line Conduit

### Temperature Range:

-45°C to +65°C  
+50°F to +150°F

# Standard Air Hose

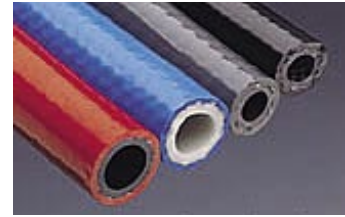

## Features:

- Black PVC Core
  - Polyester Reinforcement
  - Shiny, coloured PVC Cover
  - Good Resistance to Oil, Ozone and U.V.
  - Light Weight, Non-Marking and Flexible
- Good Abrasion Resistance**

## Temperature Range:

-5°C to +65°C      +25°F to +150°F

Good resistance to oil, ozone and U.V. Light weight non marking & flexible, good abrasion resistance, air & water transfer, light chemical transfer, light vacuum and wire conduit.

## Features:

- NSF Certified Under Standard NSF-51 plastic materials and components for use in food equipment
  - Compounds made from materials on the FDA List
  - Non-toxic
  - Clear PVC tube
  - White spiralled polyester yarn reinforcement
  - Longitudinally reinforced with blue tracer yarn to reduce elongation under pressure
  - Clear PVC cover
  - Light weight, non-marking, flexible
  - Tight tolerances
  - Self-extinguishing
  - Silicone-free
  - Non-conductive
  - One piece lengths
  - Compound hardness 75 +/- 3 durometer Shore A
- Special lengths and Metric sizes available

## Applications:

- Air lines
  - Air breathing Lines
  - Water Line
  - Deionized, pure or distilled water
  - Food and beverage dispensing
  - Potable water transfer
  - Light Vacuum Lines
  - Wire Conduit
  - Pneumatics
  - Packaging machines
- Mild chemical resistance (call for specific chemical recommendation)
- Temperature Range:  
-5°C to +65°C  
+25°F to +150°F

Non-marking, flexible, tight tolerances can be printed. NSF certified under standard NSF-51, FDA compounds used comply with FDA standards. Uses: air, water and food transfer vacuum lines, also wire conduit lines. 05C to 65c +25F to 150F.

## Water Hose

Available in Three styles.

### Light Duty

Knit reinforced for extra strength

For light watering chores. Green color

### Medium Duty all Weather

For General lawn, Garden, industrial use.

Flexible with added reinforcement for added strength.

### Heavy Duty Continuous Flow

For heavy duty, Lawn, Garden, Industrial and heavy plant use.

Patented inner core keeps water flowing

## The Toughest Bins in the Business

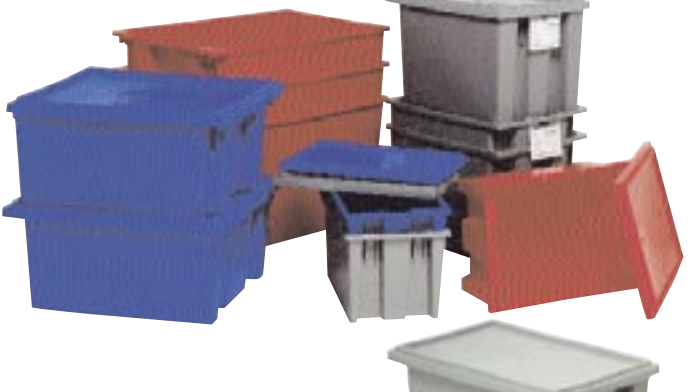

Heavy duty, extra strong injection molded, high density polyethylene bins are ideal for transportation and storage of large and heavy parts. Open hopper front allows immediate access and visibility. Ribbed reinforced walls ensure extra strength. Double wall thickness with preformed lip allows bin to interlock and provides up to 150 lbs. stack capacity. Transport these bins easily with rear molded handle. Molded in label slot. Impervious to most solvents, corrosion, rust and rot resistant. Resists temperatures from -40°F to 250°F. Optional window maximizes storage and prevents spillage. Available in Blue, Yellow, Green, Red and Black.

# Heavy Duty Hang & Stack Bins

Organize your inventory with strong injection molded plastic bins. Front, back and side grips for easy handling. Built in rear hanger allows bins to hang from louvered panels or rails. Optional clear plastic window increases bin capacity and provides quick view of bin contents. Dividers maximize flexibility and keep contents organized. Wide stacking ledge and anti-slide lock keep stacked bins steady and prevent forward shifting. Waterproof bins resist rust and corrosion. Large molded front label slots for ID labels. Autoclavable up to 250°F and resistant to extreme cold. Available in Blue, Yellow, Red, Green, Ivory and Black. JUMBO Ultras available in Blue, Yellow and Red.

## QUS 233

can be used with either length or cross divider

\* When attached to panels or rails (Note: Bins without a load capacity listed are not designed to hang on panels or rail units)

\*\* Indicates cross divider. \*\*\*With casters, overall height is 14".

Labels are available for all Ultra Bins. For model no., substitute "L" for Q in bin model no. Ctn Qty: 50 labels

# Economy Shelf Bins

Replace wornout corrugated bins permanently with these tough, durable, high density plastic bins. Quantum Shelf Bins are the industry standard for quality. These durable polypropylene / polyethylene bins feature a molded in label holder, built-in rear hanglock which allows bins to tilt out for complete access when on shelving. A wide hopper front allows complete access to the contents of the bin. Edges are reinforced for added strength. They are designed for 12", 18" and 24" deep shelf units, racks or standard shelving. Bins are waterproof, impervious to most chemicals and unaffected by grease or oil. Available in Blue, Yellow, Red, Green, Ivory and Black.

# Wiping Materials

## Colored Knits

Manufactured from reclaimed assorted tee and polo shirts. A soft, absorbent, multi-purpose product

Code#	Description	25lbs per box		
		1 Box	10 Box	20 Box
WIP09111	Colored knit	45.00	29.00	19.00

## Bleached Knit

Manufactured from reclaimed white tee shirts, may contain colored logos or trim, Excellent Multi-purpose product

Code#	Description	25lbs per box		
		1 Box	10 Box	20 Box
WIP09111		45.00	29.00	19.00

## New Washed and Bleached Remnants

New tee shirting that has been washed and bleached. To enhance absorbency. Outstanding for staining and Other High end applications. All pieces contain 100% Cotton.

Code#	Description	25lbs per box		
		1 Box	10 Box	20 Box
WIP09113		99.00	69.00	59.99

## Hermitex®

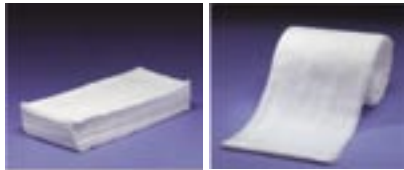

Manufactured by Deroyal textiles specifically for the Aerospace business, Bright White high quality purified Cotton fiber are lo-lint and non-abrasive, but strong enough to withstand industrial wiping and polishing, even with strong solvents. Absorbs more than 4 times its dry weight in liquids, 100 pieces in precut and 10.5"x 16" sheet layered roll.

Code#	Description	Price	
		1 Roll	12 Roll
WIP09113		29.00	14.99

## Cheesecloth

100 % cotton domestic, Cheese cloth is very soft and Absorbent. The openness of the weave assures the user will not displace The contaminants on the surface but will clean the surface and make it Ready for bonding, painting or polishing Folded 4 ply 9" Packed in convenient boxes 70 yards per box Grade 40

Code#	Description	1 Box	10 Box
WIP091115	Cheesecloth	89.00	49.00

## Delicate-Task Wipes

Low-lint  
Great for use on electronics  
Ideal for instruments or lens cleaning  
Great for laboratory

Part #	Size description	1 case	5 case
WIP09117	1280/wipes per box 60 box/case 4.5" x 8"	159.00	139.00
WIP092174	140/wipes per box 15 box/case 14.5" x 15.75"	99.00	89.00

Scented citrus degreaser dissolves grime. Will work on the toughest

# Industrial Wet Wipe

Grime, Grease, Tar, and printers ink Acts like a rust inhibitor. Lanolin based

Code#	Description	1CN	2CN	3CN
WIP09123	10" X 12" 70 Wipes Per Container	29.00	16.00	13.75
WIP09124	10" X 12" 130 Wipes Per Container	39.00	28.00	24.95

## Wipes NonWoven

These wipes are effective in cleanroom applications because they are extremely low particle generation and ultra purity. A Super absorbent Non-woven, Ultra low Chemical extractable. Super high tensile, tear and bursting strength. Special blends of wood pulps and polyesters. Manufactured by using advanced Hydroentanglement technology. Clean room packaging in double bags Absorbs 4 time there own weight. Will not scratch either using them wet/dry

# SECURALL® Aluminum Cylinder Storage Cabinets

*Non Corroding, Non Sparking, All-welded*

- *Designed specifically for Outdoor Storage*
- *Welded padlock hasp doors for controlled access*
- *Drop-ship fully assembled via truck; FOB: La Porte, IN*

These heavy gauge aluminum gas cylinder cabinets provide significant advantages over conventional painted steel models. Designed for outdoor storage, these all aluminum cabinets will resist weathering and won't corrode or discolor. Just 1/3 the weight of painted steel units, aluminum models also offer real savings on shipping charges. All welded construction, ready to use, shipped fully assembled. These cabinets will provide years of tamper resistant storage for your LP and Oxygen gas cylinders. Meets OSHA Subpart 1910.110 requirements and NFPA 58-113 standards.

### HORIZONTAL Model for 20 & 33 lbs cylinders

## Modular Spill Platforms

**Code #:** 1632  
**Size:** 2 Drum  
**Price:** 166.70

**Code #:** 1633  
**Size:** 4 Drum  
**Price:** 300.06

Bring flexibility to your storage area. Eagle platforms are available in 1, 2 and 4 drum sizes and can be arranged in an endless number of ways. They have a low profile for easier loading and unloading and are compatible with the 1689 poly ramp. HDPE construction with removable poly grating.

**Code #:** 1689  
**Size:** Ramp  
**Price:** 163.00

**Code #:** 1633  
**Size:** 1 Drum  
**Price:** 84.68

Great for incidental spills and leaks

## Spill Containment Pallets

**Code #:** 1620  
**Size:** 2 Drum  
**Price:** 254.36

Eagle spill pallets are fork-liftable, meet EPA requirements for secondary spill containment of hazardous materials. HDPE construction with removable poly grating with 3/4" removable drain plug.

**Code #:** 1645  
**Size:** 4 Drum  
**Price:** 317.96

Meet EPA requirements for secondary spill containment of hazardous materials (40 CFR 264.175)

## Overpack Drums

Discount per part no.: Less 5% 2-3 cases; 10% 4-5 cases; 15% 6-11 cases; 20% 12 cases or more. (Discounts apply to film only)

**Tear Resistance:** Holes and tears in film will not propagate, maintaining unity of the load while stored or in transit.

**Excellent Cling:** Outstanding holding power without glue, heat, or tape.

**Outstanding Stretchability:** Provides excellent yield and unitizing force to securely hold the load.

**Economical:** Outperforms tapes and strapping at a fraction of the cost.

Is excellent for unitizing general loads safely and economically. Unitization makes anything stacked, stored, or shipped easier to handle, also reducing in-transit damage.

## Expresswrap™

An economical alternative to tape, strapping and twine.

Bundle items to ship, and for permanent storage.

Use for Tools, Carpet, Tubing, Boxes and many more items.

## Corrosion Protective Paper VCI

We are offering 3 different model of corrosive paper, Nox Rust™, is a 35lb gsm neutral natural kraft saturated with VCI ferrous volatile corrosion inhibitor formulation. Nox Rust™ is for long term protection of Steel, cast iron and Chrome. Protek Wrap™, is a 35lb. Natural neutral kraft, single ply coated with VCI ferrous volatile corrosion inhibitor formulation. Designed for general protection of ferrous metals.

UNIWRAP A™, Is a 35lb neutral natural kraft saturated with VCI multi-metal volatile corrosion inhibitor formulation. Designed for general purpose wrapping of combination ferrous/ non-ferrous metals where no barrier is required. Provide corrosion and tarnish protection for combination of metals, including Iron, steel, cast iron, tin, zinc, aluminum and copper.

# Industrial Sprays

## MULTIPURPOSE ADHESIVE SPRAY

This mist spray adhesive is the one true all purpose adhesive. This unique product utilizes an advanced rubber system to create a product versatile enough for everything from crafts to industrial applications. It's high heat resistance (over 200 0 F) allows use in a variety of environments. The formula is pressure sensitive with fast tack and forms an ultimate permanent bond. Non-staining, the conical mist spray pattern has minimal overspray and resists melting while retaining the same strong tack and adhesion. Formulated with the environment in mind, this product contains no chlorinated solvents, carcinogens, or ozone depleters and cleans up easily with mineral spirits.

## HEAVY DUTY SPRAY ADHESIVE

This wide web spray adhesive is one of the highest performance aerosol adhesives available. For both temporary and permanent bonding. This product is ideal for uneven or porous surface and weight materials. Waterproof, Flexible, Transparent and non-staining. Use this product for the toughest adhesive applications with materials such as Leather, cardboard and most plastics, polyethylene sheeting and cloth. Contains no chlorinated solvents or ozone depleters, high solids. Great for Upholstery, Marinas, sheet metal shops leather shops, foam shops labeling cardboard, Carpet and wall paper repair and asbestos abatement. Can net wt. 20oz.

## MULTIPURPOSE SILICONE SPRAY

The light duty silicone spray is excellent to use to prevent corrosion on metals, reduce friction on surfaces, lubricate and quiet moving parts, and dress and detail rubber, plastic, vinyl and other materials. This high tech silicone spray is ideal for the needs of the food industries. This product meets USDA requirements for use in federally inspected meat and poultry plants. Meets 21 CFR 175.300 for Resinous and Polymeric Coatings intended for use in producing, manufacturing, packing, processing, preparing, treating, packaging, transporting, or handling food. Colorless, odorless, heat stable, and nonstaining. Ideally suited for use on ice machines, knives, cutting tables and blades, conveyor system maintenance, bottling and canning machinery, bakery equipment, dairy equipment, feed racks, in bars and restaurants, and virtually any equipment or machinery in or near food related areas. In addition, the fan spray pattern reduces overspray and waste. Contains no ozone depleters, carcinogens, or chlorinated solvents.

## HEAVY DUTY SILICONE SPRAY

This high viscosity Heavy-Duty silicone (10,000 centistrokeS) is specially formulated to provide superior all purpose lubrication and protection without the use of ozone depleters or chlorinated solvents. Use this products on moving parts as a water and weather barrier as an electrical insulator and to prevent sticking, Squeaking and freezing of doors, widows locks and assemblies. Safe for use on virtually surface 16 oz can.

## PENETRATING LUBRICANT

This aggressive, chlorinated, nonflammable product quickly and easily loosens, cleans, and lubricates frozen nuts, bolts and moving parts. This industrial grade formula out performs "retail" penetrants and most commercial products. The aerosol version is fortified with PTFE and a corrosion inhibition additive for not only improving lubricity but also preventing metal degradation.

## SAFETY SOLVENT CT

This safety is one of the most powerful industrial solvent cleaners available. Its fast drying, nonflammable, nonconductive and completely non-ozone depleting. The low odor formulation leaves no residue and does not contain methylene chloride. A unique feature of SAFETY SOLVENT CT is the special dual action valving system which allows for both misting spray for broad area degreasing and blasting spray for hard to reach areas and extra deposit removal power. Use this product to remove grease, oil dirt and other deposit from electrica motor, power equipment, printing presses, conveyor/escalators and virtually any metal equipment or parts cleaning. While excellent as a multi-purpose cleaner, the product has the advantage of dielectric strength for use on live electrical equipment. As with most chlorinated solvent based products this formula will affect certain plastics and rubbers. Always test in an inconspicuous area to check for product compatibility. 20 oz. can

## ANTI STATIC CLEANER

This innovative product combines the best attributes of a glass cleaner and an all purpose cleaner with SFX, a breakthrough antistatic agent. Ideal for use on electronic displays, optics, PC housings, and more, this high foaming, powerful cleaner easily replaces several multiple products without sacrificing performance.

## CORROSION INHIBITOR

Designed to protect metal parts from corrosion during storage and handling, this product forms a self-healing, soft, waxy film that is resistant to most contaminants such as moisture, sand, dirt, dust – even vibration.

## GLASS CLEANER

This multipurpose foaming product is an aggressive nonammoniated, butyl based formula in aerosol form. It has a pleasant floral fragrance and is excellent for use on tinted windows as it will not affect tinting film. It works on most types of glass surfaces including mirrors.

## WASP & HORNET KILLER

This value product combines 0.1% Tetramethrin with 0.25% Permethrin for fast knockdown in an economical synthetic pyrethroid product. Nonconductive to over 47 KV, this formula is nonflammable and contains no chlorinated solvents or ozone depleters. The powerful blast spray reaches in excess of 20 feet. Ideal for utility professionals.

## WHITE LITHIUM GREASE

With the performance of white grease and the ease of an aerosol can, this product is an exceptional coating for prevention of rust and corrosion. A durable, nonstaining lubricant, it is fortified with PTFE to reduce friction between surface of similar or different materials without gumming or caking. Formulated without chlorinated solvents or ozone depleters, it is excellent in auto, marine, and aircraft applications plus more.

Industrial Spray

## DURA INK® #15

- Ideal for fineline marking
- Extra-tough tip won't spread or mush
- Smear-resistant, water-resistant, fast drying
- Marks on metal, wood, cardboard, paper, plastic & glass
- For identification of parts, layout work, and marking cartons and crates

Code No.	Description	Price
96023	Black Fine Dura-Ink	\$1.12

## DURA INK® #25

- Chisel tip makes fine lines or broad marks
- Extra-large ink supply for greater mileage
- Heavy-duty metal barrel
- Use for cardboard, wood, metal, ceramics, glass and leather

Code No.	Description	Price
96223	Black King Dura-Ink	\$2.58

## BALL PAINT MARKER®

- Marks with real paint, dries in 5 minutes
- Durable metal ball tip marks on wet, oily, smooth and rough surfaces, including metal, wood, plastic, and glass
- Ideal for color coding, inspection, shipping, identification, assembly and fabricating
- Lead-free, non toxic

Code No.	Description	Price
84621	Yellow Ball Paint Marker	\$5.44

### Locking Systems & Step Treads

For 6-16 step ladders. Positive SAF-T lock with release secures ladder when an individual steps on the first step triggering the release bar. Caster carriage retracts allowing metal reinforced rubber-tipped feet to grip floor. Step on U-Tube bar and ladder becomes mobile on our new easy-roll polyurethane wheels. For 2-5 step ladders. Retracting spring loaded caster with steel reinforced rubber tip feet.

G-Strut

Safety grating for sures footing when liquids are underneath or area is not clean

G-Perf

Perforated steel tread for normal use where liquids are not present.

(Standard) SAF-T Lock

See above for more information on the Gillis positive Saf-T Lock System.

## BARRICADE & WARNING

### BLOCKADE™ BARRICADES

#### X Marks The Hazard Spot!

Highly-visible Blockade™ Barricades identify and surround hazardous areas. Portable panels make a quick and easy warning system.

Bright yellow, X-shaped Blockade™ Barricade panels are impact-resistant, polyethylene plastic, measuring 42" h x 21" w x 1 1/2" d.

Panel has convenient interlock-hinge design to easily connect to one another - start with two together and expand to as many as you need. The hinge is offset to allow the Blockades™ to fold flat together without having to take them apart for easy storage and portability. Hollow, yet thick-walled, durable Blockade™ Barricades are lightweight enough to take anywhere. Bold messages are bonded to the single side of the upper and lower portions of the panels. Messages are also available double-sided. Blockade™ Barricades are available in packs of 2.

#### Additional Messages Available

To Order, add message code after part number.  
Single-sided - (S); Double-sided - (D).

Style Unit of Measure - Package of One Pair (Alike)

Single-Sided Message - (S)	\$133.54
Double-Sided Message - (D)	159.52

### CONE TOP WARNING SIGNS

Add a clear, direct warning message on top of your cones.

Slip the cut-out at the bottom of the sign into the top of any traffic cone to stay in place. 10" x 14" orange signs are durable .060" polycarbonate plastic printed on both sides with weather- and fade-resistant inks. Available each.

Custom Cone Top Warning Signs are available with a graphic or logo.  
Call, fax or e-mail your request for a quote and delivery.

Cone sold separately.

Unit of Measure - Each	\$16.40
------------------------	---------

### TRAFFIC CONES

Bright traffic cones provide maximum visibility under all conditions — indoors and outdoors.

Clearly outline hazardous areas to drivers and pedestrians. Place them in and around the plant and facility, as well as roadways. Conical design with square base makes them resistant to tipping. Durable, flexible, and resilient — molded of PVC (Poly-Vinyl-Chloride) plastic with UV stabilizers for maximum resistance to fading. Cones are stackable for transport and storage. Available each. Additional color and sizes available.

Height	Weight (lb.)	No.	Unit of Measure - Each
<b>All Red/Orange Standard</b>			
12"	1.5	FBC212	\$8.26
18"	3.0	FBC214	10.05

36"	10.0	FBC218	25.20
36"	12.0	FBC219	31.10

### CONE CUFF™ SLEEVE

Turn your traffic cone into a safety message cone.

Slip the Cone Cuff™ Sleeve over standard 18" and 28" high cone to display message. The flexible sleeve is easy to remove and stores flat. The safety message is printed three times on durable 10-oz. reinforced vinyl to be seen from various directions.

Item	Unit of Measure - Each
Cone Cuff™ Sleeves	\$7.60

Custom Cone Cuff™ Sleeves are available with your own message, along with a graphic or logo.

## Barricades

**REGULATORY TRAFFIC SIGNS & POSTS**

The **MUTCD (Manual of Uniform Traffic Control Devices)** is a national standard for traffic signage to be consistent throughout the U.S. Our signs meet most state and federal DOT (Department of Transportation) specifications, including MUTCD requirements.

Keep traffic moving, organized, and under control by posting traffic signs to safely direct and regulate the flow of vehicles and pedestrians in and around parking areas, dock areas, and roadways. Also, keep driveways, throughways, and curbs free of vehicles and direct those to designated parking locations with proper signs. Signs need to be visible to warn, inform, and instruct drivers and pedestrians alike of proper rules of the road.

**MATERIAL**

**Reflective Aluminum (RA)**

Traffic signs are heavy-duty .080" thick aluminum with an engineer-grade reflective surface. This provides additional visibility in low-light conditions and dark areas when light is directed at the sign. They are screen-printed with UV-resistant inks to prevent fading. Aluminum provides the strength and durability of metal, yet does not rust. It has superior abrasion, and corrosion, and chemical resistance. These signs can last for years indoors and outdoors withstanding the harshest weather conditions.

12-ft.	HSP112	53.13	HSP113	68.21

**CAST IRON BASE AND STEEL POST**

Base is solid, heavyweight cast iron, available in 14" and 18" diameters. The base is 27 and 37 lbs. respectively for stability. The 1 7/8" outside diameter x 48" h steel post can accommodate sign sizes up to 24" x 24". Comes complete with sign mounting hardware. Easily tilt and move base and post with wheel attachment (sold separately).

**Unit of Measure - Each**

18" dia.	HSP418	152.53
Wheel Attachment	HSP411	39.92

**Custom Traffic Signs**

Custom printed traffic signs are useful in parking areas; at construction sites; in school zones; near railways; on corporate service roads. They provide specific regulations, warnings, directions, and identification.

Custom Traffic Signs are available in Engineer Grade reflective sheeting bonded to .080" aluminum. You may include corporate logos and facility color coding. Available in a variety of different sizes and colors, with color matching available. Call or fax us your wording and design requirements along with quantity. We'll get right back to you with a delivery time and quotation.

Traffic

# FOLD-UPS™

These self-supporting, free-standing signs are constructed of a rugged, .125" high-impact plastic. Fold-Ups™ measure 20"h x 12"w, have a handle cut-out for ease of carrying and fold flat for transport and storage. Both sides have the same message. Available each.

Additional legends available, contact us for details.

Unit of Measure - Each  
Price  
\$29.79

Free-standing signs allow you to temporarily identify hazardous conditions or display important messages, quickly and easily.

## Reversible Fold-Ups™

Mark temporary hazards with lightweight plastic floor signs - and they're reversible!

Reversible Fold-Ups™ provide the versatile advantage of having two signs in one. Signs are printed with bold messages and symbols on the panels to warn and direct. Flip and fold the sign inside-out to reveal the other message, now on the outside panels.

Signs are made of lightweight, waterproof corrugated plastic with fold-and-insert-tab design to stand 20" h x 12" w. They have a carry handle cut-out on top and fold flat for transport and storage. They are economically ideal for limited purposes or disposable for one-time use. Available each.

Unit of Measure - Each  
Price  
\$19.97

Other styles available, contact us for details.

## Custom Reversible Fold-Ups™

Reversible Fold-Ups™ can be printed to meet your specific message and symbol or logo.

Specify part number **PFE455**; draw out your ideas - for both sides - and point out any header; specify surface color (yellow or white) and print colors; and quantity. Call, fax, or e-mail us your request, and we will confirm with a price and delivery time.

## ACCIDENT PREVENTION TAGS

The Occupational Safety and Health Administration (OSHA 29 CFR §1910.145) and American National Standards Institute (ANSI Z535) provide specifications, designs, applications, and uses of accident prevention tags. Tags can be printed in a variety of colors and messages to meet your needs. They are typically designed with attention-getting signal word for a degree of hazard along with a specific message and areas to write in particular information.

### materials

#### PF-CARDSTOCK (CT)

Pulp-free tags, waterproof and lasting longer than standard cardstock tags, yet for the same economical price.

- Tear-resistant, pliable, 10-mil polyolefin-base
- Will not crack, distort, or shrink over a wide temperature range
- Ideal for indoor and short-term outdoor conditions.
- Printed on both sides
- Scuff-resistant, with matte-finish is easy to write on
- Tag size is 5 7/8" x 3 1/8" with 3/8" hole.

#### RV-PLASTIC (PT)

Tear-resistant, weather-resistant, and chemical-resistant for dirty and greasy environments.

- 15-mil thick rigid-vinyl plastic
- Flexible in nature
- Ideal for indoor and outdoor temporary tagging applications
- Printed on both sides with a markable, write-on surface
- Tag size is 6" x 3 1/2" with 3/8" hole, reinforced by a metal grommet.

## How to Order Custom Tags

Ask your Customer Service Representative for details.

**1** Small Order Quantity  
Order as little as one pack of 25.

**2** Choose Material & Size  
Here are some standard sizes, with our more popular materials. Other sizes and materials are available.

**MORE Tags Available — Standard & Custom — Made Easy, Simple & Fast.**

- Write or sketch out your wording. (Don't forget to indicate your colors.)
- Select a tag heading, size & material.
- Decide how many you need.
- Call us or fax us your order request.
- We'll get right back to you with a delivery time and quotation.

### Standard Sizes

- Cardstock, 6 1/4" x 3 1/8"
- Vinyl Plastic, 6" x 3 1/2"
- Laminated Plastic, 5 3/4" x 3 1/16"

**3** Any Wording And Graphic  
The right combination of words and graphics provide a powerful message.

**4** Any Color Combination  
Choose standard OSHA/ANSI headers. We also offer your choice of colors.

Signs • Tags • Labels

**ACCIDENT PREVENTION TAGS**

Header style tags meet the American National Standards Institute (ANSI Z535.5) and Occupational Safety and Health Administration (OSHA 29 CFR §1910.145(f)) requirements. These standards provide specifications, design, application, and use of accident prevention tags. Tags are to identify a temporary hazard until that hazard is eliminated or hazardous operation is complete. Available in packages of 25.

**MATERIALS**

**PF-Cardstock (CTP)**

Pliable, 10-mil plastic cardstock (pulp-free, no wood-paper content) are tear-resistant and waterproof for light duty, short-term use. 5 7/8" x 3 1/8" with 3/8" hole.

**RV-Plastic (PTP)**

15-mil, plastic tags are tear-resistant, weatherproof, and resistant to chemicals, grease, and dirt. 6" x 3 1/2" with 3/8" hole, reinforced by a pull-proof, metal grommet.

**HS-Laminated Plastic (LTP)**

Nearly indestructible, tags withstand tough, abusive, dirty, and greasy conditions. Laminated on both sides with thick matte plastic. 6" x 3 1/16" with 3/8" hole, reinforced by a pull-proof, metal grommet.

**TO ORDER: Add material abbreviation suffix code to part number.**

**STANDARD TAGS**

Tags are available in three materials, PF-Cardstock, RV-Plastic, HS-Laminate, in standard size. Tags are available in two back styles - noted under each tag as A and B, meeting the requirements of the message and space for writing in 'remarks'. Packages of 25.

## CONFINED SPACE

### Dangerous Confined Spaces must be identified. Mark Them!

OSHA 29 CFR § 1910.146 Permit-required confined spaces states that "Confined space means a space that: (1) Is large enough and so configured that an employee can bodily enter and perform assigned work; and (2) Has limited or restricted means for entry or exit...; and (3) Is not designed for continuous employee occupation."

## CONFINED SPACE SIGNS

§ 1910.146(c)(2) states:

"If the workplace contains permit spaces, the employer shall inform exposed employees, by posting danger signs or by any other equally effective means, of the existence and location of and the danger posed by the permit spaces. Note: A sign reading 'DANGER — PERMIT REQUIRED CONFINED SPACE, DO NOT ENTER' or using similar language would satisfy the requirement for a sign."

### MATERIALS

#### Adhesive Vinyl (VS)

Vinyl is economical and flexible 4-mil thick with self-adhesive back.

#### Plastic (VP)

Semi-flexible .055" plastic is appropriate for medium-duty use indoor and sheltered outdoor environments.

#### Aluminum (VA)

Withstands splashes and washdowns indoors and out — providing the strength of metal, without rusting. Sign is permanently bonded to rigid .040" aluminum and protected by over-laminate film.

### How to Order Signs

When placing your order, add the material abbreviation to the product code.

10" x 14" MCSP002 + VP Plastic = MCSP002VP

Additional Materials Available, call for pricing.

#### Unit of Measure - Each

### Value™ Signs

Size	Adhesive Vinyl — VS	Plastic — VP	Aluminum — VA
7" x 10"	\$5.93	6.47	10.21
10" x 14"	8.49	9.68	17.49

## MANHOLE WARNING BARRIER™

The Manhole Warning Barrier™ fits right inside the manhole, and is visible when the manhole cover is removed. It is to warn of entry by requiring the individual to physically remove the barrier. Molded, clear durable lightweight plastic to withstand harsh environments. Slots allow for water, debris and hazardous gases or fumes to pass. Has a highly visible 11 1/2" x 11 1/2" octagonal sign with a "NO STEP" label. Available from 21" to 42" in diameter.

When placing your order, specify dimensions of manhole and add Legend Letter Code when ordering.

No.	Inside Diameter Range	Unit of Measure - Each
MWB240	21" - 26"	\$43.56
MWB260	26 1/2" - 30"	55.88
MWB300	30 1/2" - 36"	64.95
MWB360	36 1/2" - 42"	79.79

## PERMIT HOLDER BOARD

Hang or set the center boards near or at the entrance of the confined space to be readily seen by all those involved. Board features large sign legend with clear acrylic pocket to hold 8 1/2" x 11" entry permit sheets (sold separately). Constructed of durable 1/8" thick Uvi-Plas Lite™ plastic measuring 12" h x 19" w with mounting holes. Available each.

Item	No.	UOM - 100/Pad
Checklist	CBS244	\$34.69
Entry Permit	CBS246	34.69
Sewer Entry Permit	CBS248	34.69

### Entry Permits

Entry permits (sold separately) are available in three styles - Checklist, Entry Permit, and Sewer Entry Permit - 100 sheets per pad.

## CONFINED SPACE TAGS

Available in packs of 25.

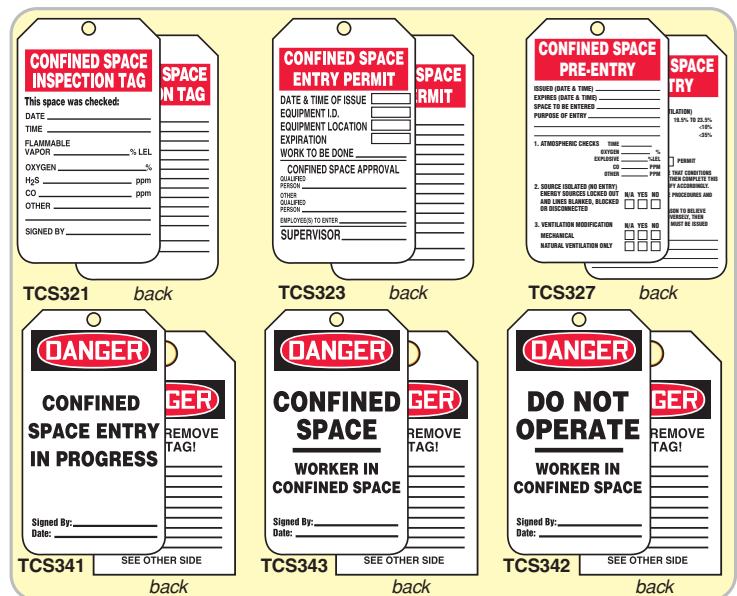

### MATERIALS

#### PF-Cardstock (CT)

Pulp-free tags, have no wood pulp or paper content, unlike standard cardstock tags, yet for the same economical, low price. The thin, pliable 10-mil polyolefin-based tags will not crack, distort, or shrink over a wide temperature range. Ideal for indoor and short-term outdoor conditions. Printed on both sides, the scuff-resistant, matte-finished surface is easy to write on. Tag size is 5 7/8" x 3 1/8" with 3/8" hole.

#### RV-Plastic (PT)

15-mil thick rigid-vinyl plastic tags are flexible in nature - the tag bends relatively easily, and are ideal for indoor and outdoor temporary tagging applications. RV-Plastic Tags are printed on both sides with a markable, write-on surface. Tag size is 6" x 3 1/2" with 3/8" hole, reinforced by a metal grommet to prevent the tag from being pulled off.

### How to Order Tags

When placing your order, add the material abbreviation to the product code.

TCS341 + CTP PF-Cardstock Pack of 25 = TCS341 CTP

### Tags

Material	Unit of Measure - 25/Pkg.	Material	Unit of Measure - 25/Pkg.

## Confined Space

**DOT PLACARDS & LABELS**

**DOT Placards & Labels meet the requirements — material, appearance, size, color, and character height — as specified by 49 CFR §172.519, 521 - 560 (placards), or §172.407, 411 - 450 (labels).**

The Hazardous Material Regulation (HM-181, along with HM-206) is specified by the U.S. Department of Transportation (DOT) in 49 CFR Parts § 171-180. This regulation includes the requirements for proper identification and classification of hazardous materials during transporting and shipping.

Requirements include classifying and affixing proper placards on transport vehicles and labels on packaging and containers to identify the proper hazard. Placards and Labels identify the material within the proper classification. There are nine main hazard classifications, in which some have divisions. These have mandated color schemes, symbols, words, and numbers to identify the hazardous material. They are printed in a diamond (square-on-point) design.

**PLACARD MATERIALS**

**Cardstock-(OC)**  
Cardstock is 13-pt. heavy-duty, coated paper stock. Flexible sign is screen-printed onto the surface. It is extremely cost effective for one time use, and ideal for use with a placard holder.

**Adhesive Vinyl-(VS)**  
Flexible 4-mil thick vinyl has self-adhesive back. Peel off liner and pressure sensitive vinyl permanently adheres to smooth, curved, and irregular surfaces. Vinyl is low-cost, yet moisture resistant, and has outdoor durability of 2 to 4 years.

**Styrene Plastic (SP)**  
Styrene plastic is economical with resistance to high impacts. Legend is screen-printed onto the .060" thick matte surface. Semi-rigid material has slight flex. Ideal for limited use (1-3 years) when requiring plastic sign. Can be used with placard holder.

**LABEL MATERIALS**

**Coated Paper Label-(PS)**  
Economical, self-adhesive label is durable for limited use. 60-lb. coated paper is surface printed and has acrylic adhesive back. Peel off liner and permanently adhere flexible label to smooth, curved, and irregular surface.

**Adhesive Vinyl-(EV)**  
Flexible 4-mil thick vinyl has self-adhesive back. Peel off liner and pressure sensitive vinyl permanently adheres to smooth, curved, and irregular surfaces. Vinyl is moisture resistant, and has outdoor durability.

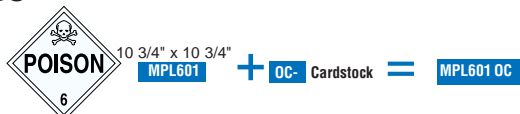

**TO ORDER: Add material abbreviation suffix code to part number.**

**HAZ-COM/RIGHT-TO-KNOW (RTK)**

**Display the necessary hazard information with Hazardous Communication Notification Signs, Placards & Labels.**

The Occupational Safety and Health Administration (OSHA) 29 CFR §1910.1200 standard is commonly known as the Right-To-Know" standard. Compliance to this standard requires employers to develop a comprehensive program for the presence of hazardous chemicals in the workplace, and to protect employees by providing them with the necessary information to properly handle hazardous chemicals.

**NFPA HAZARDOUS MATERIALS CLASSIFICATION GUIDE**

HAZMAT Classification explains the four diamond format of the NFPA Hazardous Materials Coding Systems to persons with limited emergency training.

NFPA Hazardous Materials Classification Guide may be ordered as a Blank Guide allowing you to personally number the 4" x 4" placard on the 14" x 10" sign by hand or in a Guide Kit with black on clear number and symbol hazard panels. Characters are 1" h, printed on self-adhesive Polyester and includes a NFPA Wallet Guide.

**Each kit includes:**

- One Sign
- 15 Numbers (three sets of 0 - 4)
- Specific Hazard symbols (OX, W, ACID, COR, ALK and the radiation symbol)
- NFPA Wallet Guide

Size	Adhesive Vinyl		Uvi-Plas™

Guide Kit

**NFPA PLACARDS**

**Designed for on-the-spot classification of potentially hazardous chemicals, ease of installation and the convenience of personal customization.**

Blank Placards are the NFPA color code diamond. Available on 4-mil pressure sensitive vinyl or vinyl laminated .060" Uvi-Plas™ plastic. You can write in the numbers and symbols or use pre-printed number and symbol hazard panels. Hazard Panel Characters are numbers and symbols on 2-mil clear, self-adhesive polyester, available individually or included in a Placard Kit with 15 numbers (3 sets of 0-4) and 6 symbols.

## SELF-ADHESIVE LETTERS & NUMBERS

Use letters and numbers for marking transformers, machinery, and shelves.

Printed on premium grade deluxe vinyl with a high-gloss finish. Self-adhesive labels, with peel-off liner mounts easily to any clean, dry surface — indoors and outdoors. Color choices: Black on White (WT); Black on Yellow (YL). When ordering, add color code to part number.

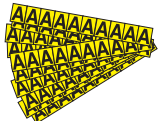

Unit of Measure - Per Card Set

Character Height	Label Size	Markers Per Set	No.	Price
1"	1 1/2" x 7/8"	10	NCH601	\$2.33
3 7/8"	5" x 1 3/4"	5	NCH604	4.78
6"	9" x 5"	1	NCH605	4.78

### How to Order Self-Adhesive Letters & Numbers

When placing your order, add character choice and color abbreviation suffix to the part number.

NCH601 + A + YL = NCH601AYL

1" Character; 1 1/2" x 7/8" Marker Letter "A" Black on Yellow

## LETTERS & NUMBERS PACKS

Bold 3 1/2" high black letters and numbers are individually printed on white pressure sensitive adhesive vinyl with peel off liner. To order, add letter or number character after the part number.

Unit of Measure - 50 (same) characters / pk

No.	Price
NAK101 .....	\$13.28

## LOCKOUT/TAGOUT

Simply having the machine or equipment shut off or unplugged is not enough! **LOCK IT OUT!**

### ALUMA-TAG™ HASP

Scissor-style hasp is two high-strength .090" thick anodized aluminum plates to accommodate up to six padlocks (sold separately). Jaw ends with 1 1/2" round full reach are offset to crossover one another to prevent tampering. Angled inside corners maintain critical space when opening and closing.

Tag-shape hasp has bold, contrasting lockout hazard message labels on both sides - with writing space on back. Available each.

Unit of Measure - Each			Price
Opening	Size h" x w"		
1 1/2"	6 3/4" x 3 1/8"		\$9.89

### STEEL HASP

Scissor-style, zinc-plated steel lockout hasp accommodates up to six padlocks. Hasp cannot be opened until the last padlock (sold separately) is removed. Vinyl coated visual red.

Unit of Measure - Each			
Opening	Overall Length	No.	Price
1"	4 1/2"	KDD107	\$5.27
1 1/2"	5"	KDD109	6.08

### PLASTI-TAG HASPS

Scissor-like closure is two .100" thick durable plastic with 1 1/2" diameter opening and accommodates up to six padlocks. Tag-style label face has bold lockout message with back message and write-in information printed on vinyl, eliminating the need for an additional tag!

Unit of Measure - Each		
Opening	Size h" x w"	Price
1 1/2"	6 3/4" x 3 1/2"	\$8.67

### MASTER LOCK™ COLOR-CODED BUMPER PADLOCKS

Color rubber bumper serves as a quick visual identifier. 1 1/2" w x 7/8" d self-colored laminated-steel rustproofed body. 9/32" diameter x 5/8" apart, 3/4" steel shackle. Has 4-pin cylinder tumbler and dual locking levers. Available each in six rubber bumper colors. Keyed differently.

Unit of Measure - Each		Red-RD, Green-GN, Yellow-YL, White-WT, Black-BK, Blue-BU. To order, add color code to product code.
No.	Price	
KDL902	\$12.03	

Additional lockout products available, contact us for details.

### PADLOCK COVERS

Heat-shrink polyolefin cover slides over the metal padlock body. Apply heat to cover, shrinking it in seconds to a tight fit making an abrasion- and tear-resistant wrap. "DANGER, LOCKED OUT, DO NOT REMOVE" has space to write name and department.

Note: Do not apply to plastic body padlocks.  
To order, add color code after part number. Red-RD, Yellow-YL

Unit of Measure - 25/Pkg.	
No.	Price
LAK221	\$30.69

### PADLOCK OVER-LAMINATE LABEL

Half of label has print with writable area (with pen or pencil) name, date, and any other ID needed. 1 1/4" h x 8 3/4" l self-adhesive vinyl label has peel-off liner. Other half is clear to wrap and protect the legend and written surface.

Unit of Measure - 25/Pkg.	
No.	Price
LAK125	\$17.16

### PADLOCK & KEY ID LABEL SET

Two-part, perforated label becomes two — one for padlock and one for key. Label is pre-numbered sequentially with write-in space on the two parts for secure identification and self-laminating to protect the information. Padlock label portion incorporates Danger Lockout message. Ring to attach key label to key included.

Unit of Measure - 25/Pkg.	
No.	Price
LAK175	\$49.23

### STEERING WHEEL MESSAGE COVERS

**Prevent someone from driving a disabled or under repair vehicle.**

The reinforced vinyl cover has a screen-printed warning legend and message, and fits over standard steering wheels to be seen. The upper half has a stitched pocket to slip over the steering wheel. The bottom has a 3/8" metal grommeted hole to accommodate a 1 1/2" hasp or padlock (sold separately) securing the cover to the steering wheel.

### Lockout/Tagout

# LOCKOUT/TAGOUT

## CIRCUIT BREAKER LOCKOUTS

Lockout electrical power at the source - right at the circuit breaker. No need to lockout the entire panel. The compact lockouts fit over breaker toggles, in the off position and prevent the breaker from being switched on once a padlock (sold separately - shackle diameter up to 9/32") is in place. Rigid all-plastic construction in visible red color.

Unit of Measure - Each			Unit of Measure - Each		
Description	No.	Price	Description	No.	Price
Single-Pole	KDD121	\$3.78	Single Pole, No Hole	KDD123	\$3.96
Double-Pole	KDD122	7.45	Double/Triple Pole	KDD131	8.97

## VALVE LOCKOUTS

**Gate Style** has hinge-designed lockouts that completely surround the valve handles. Close and secure with padlock (sold separately). Made of durable polypropylene plastic.

### Gate Style: Unit of Measure - Each

## LOCKOUT / TAGOUT KITS

Be prepared to take your lockout and tagout products to the lockout locations.

Choose from several kits to help solve your lockout situations providing the necessary equipment to help you comply with OSHA safety lockout requirements. Durable, rugged polyethylene box has carry handle.

KSK234 Standard

KSK345 Deluxe

The Standard kit contains essential equipment needed for you to start an effective lockout program. 18" x 6 1/4" d x 4 3/4" h box.

KSK236 Standard Plus

KSK347 Deluxe Plus

The Deluxe kit contains more sizes and styles for you to effectively and properly shut down equipment and machinery with multiple energy sources. 21" x 10" d x 7" h box.

The Plus styles add lockout devices for gate and ball valves on pipe systems.

## LOCKOUT CENTER BOARDS

Visibly communicate the lockout safety message while storing lockout/tagout supplies — all in the same place.

### Heavy-Duty Big Board Version

30" h x 24" w x 4 1/2" d with rugged-duty .063" aluminum backboard. Inside pocket dimension: 5 7/8" h x 23" w x 4" d with two dividers.

Custom messages are also available. Ask your Customer Service Representative for details.

**PERMA-TAG™ TAGS**

This tag can take the abuse of the harshest industrial environments. It's thick, tough and rigid — to withstand tugging, pulling, twisting and bending.

Made of injection molded recycled polycarbonate plastic with raised legends on both sides. The three-dimensional characteristics make it highly visible. The properties of the polycarbonate plastic enable it to withstand the most corrosive environments. UV resistance allows for exterior use.

- Measures 5 7/16" h x 3 1/16" w x 1/8" thick.
- 3/8" hole without grommet, meeting dielectric tag requirements.
- May be written on with permanent markers.
- Available 25 per box.

# SAFETY MOTIVATION & AWARENESS

## SAFETY SCOREBOARDS

**Instill a safe and accident-free workplace by keeping track of consecutive safe work days.**

Scoreboard signs have attention-getting message that encourages employees to pay attention to their safety performances. Signs provide a visual record of accumulated days by updating safe working time daily.

### Digi-Day™

Electronic Scoreboard

Brightly lit, 4-digit red LED display has large 2 1/4" high numbers. The counter's circuitry automatically increases the number of days every 24 hours from time of setting. In the event of a power failure, the last number is stored in memory by an internal capacitor. To prevent tampering and accidental reset of the numbers, the inset control buttons can only be pushed in sequence, allowing you to change the display.

Constructed of sturdy .125" Uvi-Plas™ Lite Plastic, surrounded by an aluminum frame with brackets for easy mounting. For legends featuring "the best previous record", you may change days with magnetic numbers (included). Overall sign size is 28"H x 20"W. Operates on 120VAC, 60 Hz with 6-ft. power cord and 9 VAC converter plug end.

## PAPER Labels, Pressure-Sensitive

Paper labels are economical for short-term, temporary, and dry indoor applications — do not expose to moisture.

- Cost effective in high quantities
- Recommended for limited use
- 60-lb paper
- Matte top surface can be easily written on with pen or pencil
- Coated on the back with permanent acrylic adhesive with peel-off liner
- Available in rolls

### BACKGROUND COLORS —

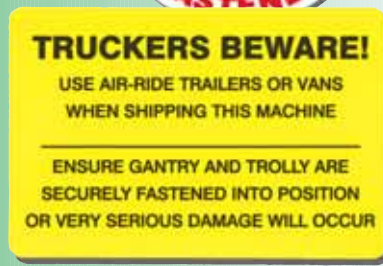

Fluorescent colors provide bright and attention-getting background. Black or dark print offers ideal contrast readability.

## VINYL Labels, Self-Adhesive

Vinyl labels are moisture- and tear-resistant with durability. Flexible material is ideal for curved or uneven surfaces. Dirt, grease, and water can be wiped off the smooth surface.

- Popular label material for most all-around, general-duty applications
- Permanent acrylic adhesive back with peel-off liner
- Clear vinyl provides "print-only" look
- 3.5-mil vinyl
- Available in rolls
- Can be used in limited outdoor exposure and some light chemical splash
- Non-coat top surface allows for writing on with any marker, pen, or pencil

LABELS  Custom

## DURABLE LAMINATED VINYL Labels, Self-Adhesive

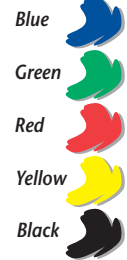

Long-lasting Laminated Vinyl labels have an overcoat for durability and to maintain readability. The UV-resistant, weatherproof overlamine protects the label from moisture, solvents, chemicals, abrasions, and fading. Dust, dirt, and grease easily wipe off.

- Ideal for harsh indoor and outdoor environmental conditions
- Easy to clean, mar-resistant gloss surface
- 4.5-mil vinyl with clear polyester overlamine, adds tear-proof strength
- Permanent acrylic adhesive back with peel-off liner
- Clear vinyl provides "print-only" look
- Available in rolls

# Property Identification Labels

*Safeguard your company property by marking with identification labels to identify and track physical assets that are considered property of the company.*

Place property identification labels on furniture, cabinets, computer equipment, office equipment, manufacturing equipment, warehouse equipment, tools, boxes, machinery, and any other fixed assets in the office, plant, and warehouse.

Labels can be printed with standard name identification for ease of recognition.

Use labels for standard identification or uniquely coded versions for asset management control program. Assign and record the label's number to the specific labeled asset allows for future access, manage, and control the information, such as for insurance and investigative purposes. Accountability for assets can reduce the potential for property theft.

Uniquely coded labels can also be used as reminders of service and lease contracts, as well as tracking production components.

## Standard Labels

Labels contain the same information, name, logo, and/or symbol. They are for recognition purpose of identification. Please provide any wording and designs.

## Sequentially Numbered Labels

Labels are printed with consecutive numbers that increase from one label to the next. The print is clear and sharp for ease of readability to record the number. Please provide any wording, designs, and sequential start and end number.

## Bar Code Labels

Bar codes are consecutive data in symbol format. The high resolution image provides optimal readability for quick, error-free, accurate identification by bar code scanners and wands. Available bar code symbology are Code 39, 1 2 of 5, and Code 128. For other bar codes please contact us.

### How to Order

Select label size by part number and specify the following: wording, symbol or graphic (if required), color of characters/symbol and background  
 For sequential numbering provide start and end number  
 For bar code provide symbology and sequential start and end of bar code number. Note: Bar codes are always printed in black (which is considered a color)  
 Provide us the quantity for verification (order in quantities of 100's starting at the minimum amount).  
 Please call, fax, or e-mail your request and we will confirm your price and delivery

## Poly-Protect Labels

Label is sub-surface printed to protect the image from light grease, dirt, chemical splash and abrasion. Good for standard marking and bar code reads for plants and warehouses. Label is 2-mil polypropylene with permanent pressure sensitive adhesive back.

## Poly-Protect Premium Labels

Tough, flexible label is ideal for long-lasting bar code readability - marking outdoor assets and equipment in harsh environments. The 10-mil thick polycarbonate has a textured, non-reflective finish to protect the sub-surface image - resistant to caustics, acids, and extreme abrasion. An additional poly-film further protects the label's image from fading and cracking under the sun's UV exposure\*. The acrylic adhesive back provides excellent bond to a variety of surfaces.

\* Black print is ideal for extreme UV exposure

other size	LTM255	Call for a quote.			

## Poly-Destructible Labels

Secure assets and deter theft by having a label that is difficult to remove. Once applied, the adhesive bonds to the surface. When one attempts to peel off the label it flakes and breaks apart into tiny pieces - preventing unauthorized removal and switching of the label to another asset. The 2-mil film has a coating that helps in the destruction of the label, yet protects the image (and bar code) from cleaning and mild abrasion.

## Poly-Tamper Evident Labels

Discourage theft and tampering of property. Also known as "void vinyl", the label leaves the word "VOID" on the surface of the property item with the removal of the label. The label can no longer be reapplied, rendering it useless with evidence of the word "VOID". 2-mil polyester label has a protective over-film to maintain image and bar code clarity from mild solvents, caustics, acids, and abrasions.

### Anodized Aluminum Plates

Thick aluminum plates are anodized for high durability in resisting abrasions, solvents, fading, corrosion, and high temperatures. 8-mil thick plates are ideal for long-lasting, permanent marking to withstand harsh environments. The photo-anodized bar codes maintain maximum clarity and detail to ensure accuracy, reliability, and visibility for years to come. Has matte surface with high-bond acrylic adhesive back. Bar codes and sequential numbers are black for contrast requirements.

### Brushed Aluminum Plates

Combine good looks on thick label plates with words, name, logo, and symbol. Rigid 16-mil thick aluminum has a printed, brushed surface, then over-coated with baked-on clear enamel hard finish for permanence and durability. Pressure sensitive acrylic adhesive back provides an excellent bond to many surfaces. Sequential numbers are stamped and filled with black enamel. Side holes (two) can be punched for fastener mounting.

# Label Holders

Organize all your labeling needs with these label holders to identify contents on shelves, bins, racks, panels, file cabinets, drawers, doors, machinery, and much more.

Use the self-adhesive styles to permanently locate the label holder. Otherwise, choose the magnetic styles for re-positioning and ease of moving the holder. In most offerings, when you need to change the label, just simply slide out the old paper label and replace it with a new one.

Where applicable, paper label inserts are available die-cut perforated on letter size (8 1/2" x 11") sheets, to print on inkjet/laserjet printers.

## Sleeve Holder Labels

Clear plastic holders protect and keep the labels in place.

It is easy to slide in and out the insert card label from the side. Matte plastic sleeves are non-glare and will not crack, chip, or discolor. Holders are available with self-adhesive foam tape back and magnetic back for ease of use on steel or metal surfaces. White label inserts, separated, are included with holders. 12 per package.

## Sleeve Holder Card Labels

Clear film label holders secure and prevent damage to the card labels.

The durable sleeve holder keeps the card label image clean and free of dirt and grease. Card label slides in from the side. Print area is large enough for bar code information protected by the plastic matte finish to assure a proper scan.

Holders are available with self-adhesive back or magnetic back for use on steel or metal surfaces. Inkjet/laser compatible insert card sheets are included. 50 per package.

## Label Guns

Mark products with small coded labels, with a squeeze, click, and swipe.

Also known as a price label gun, these hand-held portable printers are easy to use and trouble-free. Ideal for printing numeric data labels, such as price, date, code, and stock number. Print and apply the labels directly in one swift motion. The label gun's lightweight, compact, contour grip design lessens fatigue, for faster label dispensing. Labels sold separately.

Prints	No.	Price / Each
One-line		
Six numerics	HLG606	\$87.79
Two-line		
Eight numerics, top; five numerics, bottom	HLG615	123.31

Other format printing Label Guns are available. Contact us with part number HLG655, with your print requirements.

## Labels

The self-adhesive labels are easy to load with many on a roll. Available 14 rolls per package. Colors: White - WT; Fluorescent Red - FR.

To order, add color code to part number				
Labels for	Size	Labels / Roll No.	14 Rolls / Pkg.	
One-line	.55" x .86"	1500	HLG320	\$41.40
Two-line	.63" x .86"	1125	HLG331	44.12

Other label colors, and formats are available. Contact us with part number HLG355, and specify your label information.

 holders and inserts

### Magnetic Holder Card Labels

*Magnetic labeling marks metal racks and shelves as you need it.*

Magnetic holders will mount and stay in place onto any steel or other metal surfaces. Card label inserts on either side of the flexible 'rubber' holder. The holder has a 'C' channel track and surface exposed in the holder. Write, type, or print onto the insert cards and easily change them to reflect the proper identification. 25 per package.

Size	No.	Price / Pkg. of 25
1" x 3"	LMH301	\$11.88
1" x 6"	LMH302	25.98
2" x 3"	LMH304	20.70
2" x 6"	LMH306	36.56
3" x 4"	LMH307	36.56
3" x 5"	LMH310	43.94

2"	8"	6	LMH612	23.73
3"	8"	3	LMH613	23.73

Note: Label inserts are not included

### Slip Strip Label Holders

*Versatile label holder allows one to quickly change and add labels along the full length of the holder.*

Ideal to add, change, and remove labels as necessary. Just slip the labels into the bottom opening that runs the length of the clear plastic holder. Durable holder has clear front and white back, with self-adhesive on the backside to secure to any surface.

You can adhere the full length or cut to size. Use as a label or message holder by inserting labels and sheets of any size - even up to letter size! Available in 36" and 48" lengths. 6 per package.

Size	No.	Price / Pkg. of 6
3/4" x 36"	LMT707	\$34.31
1" x 36"	LMT710	36.93
1 1/4" x 48"	LMT723	50.55

3/4" x 8"	12	LMS817	\$23.73
1" x 8"	10	LMS820	23.73
2" x 8"	5	LMS830	23.73

### Write-On Magnetic Label Rolls

*Create flexible magnetic labels that can be placed and moved about.*

1/16" thick magnetic sheeting unrolls and easily cuts to length. Ideal when labels need to be changed or moved frequently. No need to stick down labels permanently - magnetic labels adhere to any steel surface. Has a vinyl top-coat compatible to write on with dry or wet-erase ink pen. Reuse the label by erasing the message with a dry or damp cloth. Available in several widths in 50-ft rolls.

Colors: White - WT, Green - GN, Blue - BU, Orange - OR, Yellow - YL  
To order, add available color to part number.

Size	Color Code	No.	Price / Roll
1" x 50-ft.	WT, GN, BU, RD, OR, YL	LMG151	\$80.25
2" x 50-ft.	WT, YL	LMG252	135.79
3" x 50-ft.	WT	LMG353	185.16

### Shelf Label Strips

*Quick to install and quick to change.*

The top load insert design assures quick and easy label changes. The 7/8" high holder strips are available in pre-cut lengths with self-adhesive back. Clear strips are sold empty. 1/2" high white label inserts are sold separately in sheets for compatible use in inkjet/laser printers.

Clear Strips

LABELS  Holders & Inserts

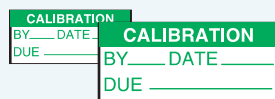

## Production Control Labels

Identify equipment, instruments, and tools for precision work and maintaining quality issues. Also known as inspection and calibration labels.

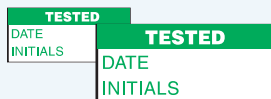

Labels help to ensure and remind that quality testing is to be maintained on the identified item on a timely basis. Information can be easily written onto the labels with pen or pencil. Labels are printed on pressure sensitive vinyl with peel-off back. Available in two sizes in packs of 25.

## Production Control Label Dispensers

Labels are ready to dispense in areas of quality and assurance. Production Control Labels are stored in a convenient disposable plastic dispenser. Inside is a roll of 100 pre-scored, pre-printed Tyvek® labels for tear-resistance. Each adhesive label measures 5/8" x 1 1/2". Pull the release liner to advance the labels out. Space is available on the label to write on. Available each.

Message	No.	Price / Each
Accepted	LPC605	\$9.92
Calibration	LPC610	
Inspected	LPC615	
Rejected	LPC620	
Tested	LPC625	

Other messages are available. Please reference part number LPC655 and contact us for details.

## Roll Label Dispensers

Conveniently organize, store, and dispense flexo-printed labels as needed. We offer several roll label dispensers to meet your requirements - choose from pull off, portable, and automatic dispensing. Eliminating the need to hand peel the back liner saves time and effort - the label is ready to apply.

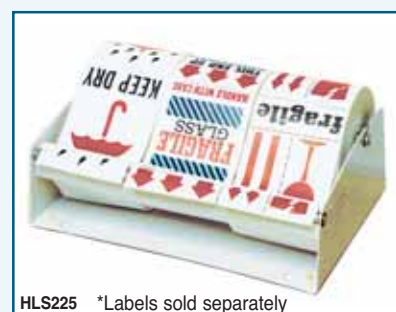

### Table-top and Wall Roll Label Dispensers

Set label dispensers on the counter or wall mount with holes provided in the base.

Install one or several width size roll labels, side-by-side. Ideal for paper stock labels - square-cut and die-cut. Accommodates roll diameter size up to 12 1/2" with 1" core. 3" core adapters are available (sold separately below).

The label roll is quick to load and thread onto the dispenser. Pulling on the back liner peels it away, and the label advances out ready to apply. Beige color dispensers are durable, steel frame construction with non-slip base. Available each.

Accommodates Label width to	No.	Price / Each

## Cable and Wire Marker Booklets

*Pre-printed labels in pocket-sized booklets to mark cable and wire.*

Marker booklets are portable packs of tape markers. Each 5 5/8" x 3 3/8" booklet contains 10 pages of pre-cut vinyl-cloth markers 3/16" w x 1 1/4" long. There is a total of 450 markers with 450 matching terminal markers sized 3/16" x 3/16". Booklet sets are printed in industry recognized letters and numbers sequences. Additional booklets are available in other character sequences, NEMA colors, and legends. Contact us for details.

## Write 'n Laminate Cable & Wire Marker Booklets

*Create your own label markers and protect the information.*

Blank labels are available in a convenient 6" x 3" booklet. Each booklet contains 10 pages of pre-cut self-laminating markers, made of 4-mil vinyl film. Simply write your legend on the white surface portion, remove the label from booklet, and wrap it around the cable or wire - the transparent label end overwraps the legend for protection from the elements to assure readability. Available in booklet packs.

## Write 'n Laminate Cable & Wire Marker Dispensers

*Pull and write your own label markers then protect the image.*

Blank labels are contained in pocket-sized, disposable plastic dispensers. Each 4-mil vinyl marker has a writable white area - after marking, pull the liner to dispense the label. Simply wrap the label around the cable or wire where the clear portion overwraps and protects the marked area from the elements to assure readability. Available each.

## Cable & Wire Marker Dispensers

*Pull, cut, and apply marker to the length required.*

Durable, lightweight plastic dispenser conveniently displays each legend for ease of operation. Holds up to 10 rolls of 1/4" wide marker label tapes. Rolls are easy to reload with a simple flip open, drop-in, and close. Dispensers are easily portable to carry on site.

**Top Lid Dispenser**, 8 1/2" x 1 1/2" x 2 7/8", contains self-wound 96" label rolls and has cutting blades to ensure clean cut-off of marker labels. Tapes are available in vinyl cloth or epoxy film to withstand high temperature of 350° F and solvents.

**Compact Dispenser** is 5" x 1 1/4" x 1 3/8". Each roll contains 76 Tyvek® markers pre-scored at 1 1/4". The adhesive markers are wound with a liner to pull, which feeds the marker from the dispenser.

Stock dispensers are available each containing 10 rolls, numbered 0 - 9. Other label tape legends are available. Contact us for details.

# Bilingual Tags

Hang Multilingual Safety Tags to be understood by everyone. Accident Prevention Safety Tags are specified by Occupational Safety and Health Administration (OSHA 29 CFR 1910.145(f)) and the American National Standards Institute (ANSI Z535.5). Printed on both sides, tags contain the header and message in both languages, as well as line spaces to write in information. Made from PF-Cardstock or RV-Plastic. Available in packages of 5 and 25.

Messages shown in various languages represent our capabilities to meeting your Multilingual Tag needs. Please contact us for your specific language message and symbol requirements.

**Custom Bilingual Safety Tags**

**Any Message, Any Language**

We can produce a tag with a message translated into the language of your choice, along with graphics, to help clarify the message. Order as little as 25 tags with no set-up fee\*.

**Design a Bilingual Tag**

**Message**

Typically, your primary message will be English with the other specified language\*. If required, specify the dialect (example - Spanish with Puerto Rican dialect). If needed, choose a safety header - OSHA or ANSI style, and symbols.

**Application**

Provide a short description of the tag's application. This helps our translators to properly word your message.

**Color(s)**

Identify specific color requirements including the print and background colors.

**Material and Size**

Choose the material which best suits your needs for durability and size.

**Quantity**

Verify the number of tags, starting at 25.

**Proof Message**

We will put together your ideas, and send you a proof (via fax or e-mail) for verification of your specifications.\*\*

We will provide a quotation and delivery time.

\*If message requires translation, fees will apply.

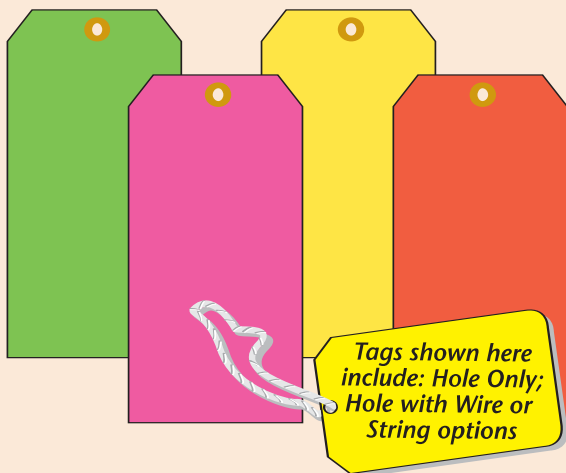

\*\*Different languages contain certain idioms and dialects which may not match when translated.

Words and phrases in other languages may differ, depending upon the message's intended use and application.

### Fluorescent Cardstock Tags

10 pt. fluorescent cardstock tags have patch-reinforced 3/16" hole. Available plain hole, looped with 12" galvanized steel wire, or looped with 12" cotton string. Available in pack of 100 or box of 1000. When ordering, add color code to part number.

Fluorescent Green-FG, Fluorescent Pink-FP,  
Fluorescent Red-FR, Fluorescent Yellow-FY

Other Fluorescent Color Tag sizes are available. Please specify TBB655, size (or size number), and color when contacting us for a quote.

Other Tyvek® tag sizes are available. Please specify TBB955 and size (or size number) when contacting us for a quote.

**IDENTIFICATION, TOOL CHECK, AND VALVE TAGS**

Identification tags mark machines, equipment, piping, and are useful as tool checks and valve tags.

ANSI 13.13.4 Type and size of letters states:

"For identification of materials in pipes of less than 3/4" (19 mm) in diameter, and for valve and fitting identification, the use of a permanently legible tag is recommended."

**NUMBERED TAGS**

Brass tag sets are numbered to identify a wide variety of applications, items, and areas — including valves, keys, and tool checks. 18-gauge (.040") brass tags are 1 1/2" in diameter with 3/16" hole. 1/2" high, stamped numbers are black-filled for visible contrast. Available sequentially numbered in series sets of 25.

**Unit of Measure - Series Set of 25**

SERIES	No.	SERIES	No.	Price
1-25	TDN101	101-125	TDN109	..... \$41.23

**How To Order Custom Identification Tags**

- Choose the material, shape, and size by part number.
- Draw out your choice and write in lettering and/or numbering with line breaks. Point out color combinations.
- Specify any changes, such as sequential numbering.

- Provide the quantity.
- Call, fax, or e-mail us your order request for a quotation and delivery time. We will put together your requirements, and send you a proof (upon request).

- If you require any tag fasteners, include them in the request.
- For other requirements different from above, please contact us for a quote.

Additional shapes & sizes available, ask your customer service representative for details.

**Identification & Valve Tags**

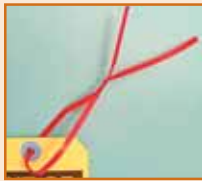

### Nylon Ties

Strong 50-lb. pull, one-piece ties for quick fastening. **Lock-style** or reusable **Release-style**.

\*add color code when ordering. RD-red, OR-orange, YL-yellow, GN-green, BU-blue, PR-purple, WT-white, BK-black.

Size	No.	Qty.	Price
<b>Lock-style color</b>			
7 1/2"	HTT108*	100 / PK	\$8.91
7 1/2"	HTT116*	EA	0.15
<b>Lock-style black</b>			
10 3/4"	HTT103	50 / PK	12.31
10 3/4"	HTT106	EA	0.34
<b>Release-style black</b>

11"	HTT109	EA	0.37

### Plastic Twist Ties

Red, 5/32" wide plastic twist tie has flexible wire. 12" size. Package of 2000.

Size	No.	Qty.	Price / Pkg.
12"	HTT112	2000	\$47.58

### #6 Beaded Chain

4 1/2" lengths with locking link. Available in brass and nickel-plated steel. Package of 100.

Size	No.	Qty.	Price / Pkg.
4 1/2" Brass	HTL604	100	\$18.46
4 1/2" Steel	HTL615	100	16.03

### Stainless Steel Band Strapping & Clips

Superior resistance to corrosion along with good heat resistance. Strapping is 1/4" wide x .015" thick, and withstands 300 lb. pull. Continuous length allows for desired cut size.

Pocket size tool applies tension and has built-in cutter.

Item/Size	No.	Qty.	Price
Strapping/82.5 feet	HFS100	Roll	\$65.16
Clips/100 each	HFS125	Pkg.	39.82
Tool	HFS150	Each	140.29

### Snap Hook Loop

Zinc-plated steel loop closes with inside dimensions 1 1/2" x 2 13/16".

No.	Qty.	Price
HTL202	100 / Pkg.	\$24.58
HTL175	Each	.31

### Beaded Nylon Ties

5" white nylon 6/6. Self-locking design provides 18-lbs. strength.

Length	No.	Qty.	Price / Pkg.
5"	MAPT01	1000	\$49.71
5"	MAPT11	100	6.46

String ties available in bundles of 100.

Size	No.	Qty.	Price / Bundle
12" length	MAPT07	100	\$5.38

### Steel Wire Ties

Durable pre-cut stainless steel wire. Bundles of 1000.

Size	No.	Qty.	Price / Bundle
12" length	MAPT02	1000	\$35.89

### Over-Laminating Flaps

Clear Polyester flap that permanently seals in any hand-written information.

Type	No.	Price / Each
Uninstalled	MOVLAMU	\$0.23

### Permanent Marking Pen

Writes on any tag surface and more.

Color	No.	Price / Each
Black	HMD202	\$2.32

## Tag Pouches

### Clear Plastic

Sealed edges, both sides clear. Hang hole and open top.

Size	No.	Price / Each
6" x 4"	DTH606	\$0.57
8" x 5"	DTH608	0.63

### Self-Adhesive Clear Plastic

Sealed edges, both sides clear. Open top.

Size	No.	Price / Each
8" x 5"	DTH808	\$1.37

### Stitched Clear Plastic

Reinforced black-edged, both sides clear. Metal grommet hang hole and open top.

Size	No.	Price / Each
6" x 4"	DTH706	\$0.95
8" x 5"	DTH708	1.08

### Clear Plastic Overlap

Sealed edges, both sides clear. Metal grommet hang hole and overlap top.

Size	No.	Price / Each
7" x 4"	DTH717	\$1.48
9" x 6"	DTH719	2.40

# Security Tag Seals

Tag seals are one-way locks designed to secure and prevent access to cargo shipments, storage areas and controls.

Seal off access to areas such as trailers, box cars, containers, bins, drums, and tool boxes. Secure control areas such as lockboxes, valves, breakers, switches, meters, and other instrumentation. All tag seals feature a loop length with one end that inserts and self-locks into the other end. Tamper-resistant, they cannot be re-opened. The only way to remove a tag seal is to break it, making it tamper-evident. To prevent tag seals from being replaced by like versions, they are available numerically coded for security purposes. Once recorded, it would be difficult to replace a tag seal.

## Ball Metal Tag Seals

Thin slotted metal seal has ball end for secure fit.

Ball end contains double-locking ring closure for 136-lbs pull strength. Tin-plated steel bands are tough to break, yet flat to fit into thin slots. These corrosion-resistant seals are 8 7/16" x 3/8". Identification is embossed along the length. Available in plain and color ball top for added identification. Stock seals have wording and random start sequential numbering. Available 100 per package.

To order Color Ball Top, add color code after part number: Red- RD, Blue- BU			
Style	Wording	No.	Pkg. of 100
Plain	SECURED	TLS823	\$37.68
Color Ball Top	SEALED	TLS834	44.92

### Custom Ball Metal Tag Seals

Custom seals are available with your numbering and wording embossed.

To order, specify:

- Numbering sequence up to 10 digits
- Wording up to 17 spaces
- Color Ball Top Options: Red, Blue, Green, Yellow, White, Black
- Quantity — multiples of 1000

		Price / Each			
Style	No.	1000	2000	5000	10000+
Plain	TLS825	\$0.49	0.45	0.37	0.28
Color Ball Top	TLS835	0.51	0.48	0.44	0.33

## Flat Metal Tag Seals

Fit into thin slots and narrow spaces.

Tag seals are tin-plated steel bands featuring a hook-lock mechanism that secures in one motion with locking strength of 100-lbs. Seals are 8 3/8" x 3/8". Identification is embossed along the length. Choose standard edge or rolled edge for safety and ease of handling.

Stock seals have wording and random start sequential numbering. Available 100 per package.

				Price / Pkg. of 100	
Style	Wording	No.			
Standard Edge	SEALED	TLS812			\$28.62
Rolled Edge	SECURED	TLS801			33.45

### Custom Flat Metal Tag Seals

Custom seals are available with your numbering and wording.

To order, specify:

- Numbering sequence up to 8 digits
- Wording up to 10 spaces (17 on the embossed style)
- Quantity — multiples of 1000

		Price / Each			
Style	No.	1000	2000	5000	10000+
Standard Edge	TLS815	\$0.37	0.33	0.28	0.20
Rolled Edge	TLS805	0.42	0.38	0.33	0.24

## Plastic Padlock Wire Seals

Wire loops slip into the smallest secure points.

Sturdy plastic body with galvanized steel wire hasp has padlock-like shape. 13/16" x 1 1/2" x 3/16" body has 7/8" square wire loop (when closed). Wire has hook end that pushes in to lock within the body. Has 70-lb. break strength.

Stock seals bodies are printed with "SEALED" and random start sequential numbering identification. Available 100 seals per package.

To order: Add color code after part number: Red- RD, Green- GN, Blue- BU, Yellow- YL	
No.	Price / Pkg. of 100
TLS123	\$42.60

### Custom Plastic Padlock Wire Seals

Custom seals are available in your choice of color along with printing of your numbering sequence and wording.

To order, specify:

- Numbering sequence up to 7 digits
- Wording up to 20 spaces on two lines (10 spaces per line)
- Color\*: Red, Green, Blue, Yellow
- Quantity — multiples of 1000

		Price / Each			
No.		1000	2000	5000	10000+
TLS125		\$0.60	0.45	0.39	0.33

\*other colors available, call for details.

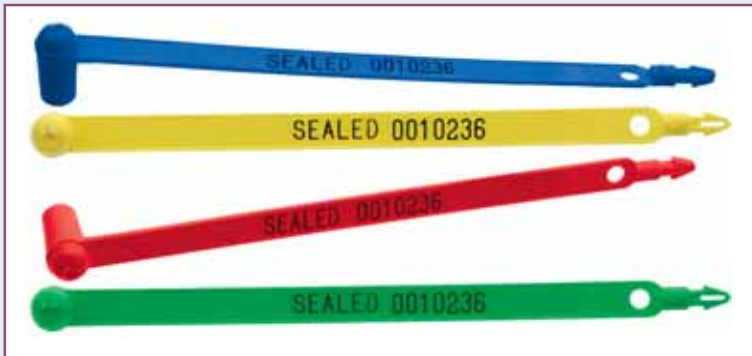

Looking for another style of tag seal? Other styles of Tag Seals are available to fit your tamper-proofing situations. Please contact us and refer to part number TLS555 - specify the style and your requirements for a quote and delivery.

IDENTIFICATION TAGS Security Seal

## Plastic Loop Seals

*Loop around and lock the ends together.*

All-polypropylene plastic, durable tag seals are .070" flat bands that are durable, yet flexible. 7 1/2" x 3/8" seal has pointed end that loops around to insert into the other end - and locks in with a snap for an 80-lb break strength. Stock seals are printed with "SEALED" and random start sequential numbering identification along the length. Available 100 seals per package.

To order: Add color code after part number:  
Red- RD, Green- GN, Blue- BU, Yellow- YL.

No.	Price / Pkg. of 100
TLS731	\$39.60

### Custom Plastic Loop Seals

Custom seals are available in your choice of color along with printing of your numbering sequence and wording.

To order, specify:

- Numbering sequence up to 7 digits
- Wording up to 16 spaces
- Color\*: Red, Green, Blue, Yellow
- Quantity — multiples of 1000

No.	Price / Each			
	1000	2000	5000	10000+
TLS735	\$0.53	0.42	0.36	0.31

\*other colors available, call for details.

## Grip Tight Plastic Seals

*Durable tread grip closes down tightly.*

Strong, all plastic tag seal grips tight has a rated 110 lb. breaking strength. Flat polypropylene band with tread edge inserts through the tab end and pulls through to tighten the seal. Each tread locks the seal in place, preventing the band from reversing out. The overall 11 1/2" tag seal has 1 3/4" x 1" printed tab and 9 3/4" long 3/8" x 1/16" band strap. Stock seals are available printed with "SEALED" and random start sequential numbering identification. Available 100 per package.

To order: Add color code after part number:  
Red- RD, Green- GN, Blue- BU, Yellow- YL.

No.	Price / Pkg. of 100
TLS718	\$49.68

## Pull Tight Plastic Seals

*Pull for a snug lock fit.*

All plastic tag seal has round barbed cord that inserts through the tab end and pulls through to tighten the seal. Each barb locks the seal in place, preventing the cord from reversing out — rated 50-lb. breaking strength. The overall 9 7/8" tag seal has 1 3/4" x 1 1/8" printed tab and 8" long 1/8" diameter cord — ideal for small hole fit. Stock seals are available printed with "SEALED" and random start sequential numbering identification. Available 100 per package.

To order: Add color code after part number:  
Red- RD, Green- GN, Blue- BU, Yellow- YL.

No.	Price / Pkg. of 100
TLS789	\$45.89

### Custom Grip Tight Plastic Seals

Custom seals are available in your choice of color along with printing of your numbering sequence and wording.

To order, specify:

- Numbering sequence up to 7 digits
- Wording up to 24 spaces on three lines (8 spaces per line)
- Color\*: Red, Green, Blue, Yellow
- Quantity — multiples of 1000\*

No.	Price / Each			
	1000	2000	5000	10000+
TLS715	\$0.65	0.51	0.45	0.39

\*other colors available, call for details.

### Custom Pull Tight Plastic Seals

Custom seals are available in your choice of color along with printing of your numbering and wording.

To order, specify:

- Numbering sequence up to 7 digits
- Wording up to 33 spaces on three lines (11 spaces per line)
- Color\*: Red, Green, Blue, Yellow
- Quantity — multiples of 1000

No.	Price / Each			
	1000	2000	5000	10000+
TLS785	\$0.62	0.48	0.42	0.36

\*other colors available, call for details.

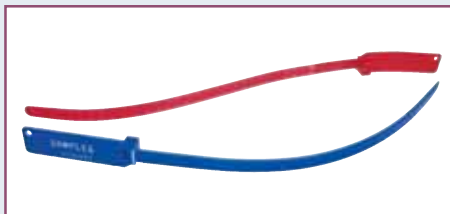

## Notch Tight Strap Seal

*Hold tight with a super strong grip.*

Heavy duty plastic seal has notched flat band. Insert the band through the base end to adjust and click-tight at each notch - locking the seal in place. Durable construction makes this seal secure to a strong locking strength of 150-lbs.

The overall 14" length contains a 2 3/4" x 3/4" printed tab with 10" x 3/8" band strap.

Stock seals have printed "SECURED" and random start sequential numbering. Available 5 seals per package.

To order: Add color code after part number: Red- RD, Blue- BU.

No.	Price / Pkg. of 5
TLS793	\$2.92

### Custom Notch Tight Strap Seals

Custom seals are available with your choice of color with printing of your numbering and wording.

To order, specify:

- Numbering sequence up to 7 digits
- Wording up to 17 spaces
- Color: Red, Green, Blue, White, Orange
- Quantity — multiples of 500

No.	Price / Each			
	500	1000	2500	5000+
TLS795	\$1.09	0.75	0.68	0.63

# High Security Seals

Traffic/Safety Sign

## High Security Plas-Steel Bolt Seal

*Color-coded bolt seals for quick identification with maximum security.*

Heavy-duty seal is plastic-coated steel bolt and locking receiver end. Bolt is 2 9/32" long x 3/4" diameter head with 3/8" diameter stem, receiver end is 1 3/8" long x 3/4" dia. Insert the bolt stem into the receiver end for secure 2,500-lb break strength — can only be removed with bolt cutters. Bolt seal is tested to ISO/PAS 17712 and complies with the sealing requirements of US Customs Trade Partnership Against Terrorism (C-TPAT). Stock seals are printed with "SEALED" and random start sequential numbering identification on the receiving end. Available 100 seals per package.

To order: Add color code after part number:  
Red- RD, Green- GN, Blue- BU, Yellow- YL.

No.	Price / Pkg. of 100
TLS612	\$253.55

### Custom Plas-Steel Bolt Seals

Custom seals are available in your choice of color with printing of your numbering sequence and wording.

To order, specify:

- Numbering sequence up to 6 digits
- Wording up to 8 spaces
- Color\*: Red, Green, Blue, Yellow
- Quantity — multiples of 1000

No.	Price / Each		
	1000	2000	5000+
TLS615	\$3.23	2.94	2.71

\*other colors available, call for details.

## High Security Steel Bolt Seal

*Heavy duty seal for maximum security.*

All-steel seal consists of bolt and locking receiver end. Bolt is 3" long x 3/4" diameter head with 5/16" diameter stem, receiver end is 1 1/4" long x 3/4". Bolt inserts and locks into receiver end for a secure 2,500-lb break strength — removal by bolt cutters.

Bolt seal is tested to ISO/PAS 17712 and complies with the sealing requirements of US Customs Trade Partnership Against Terrorism (C-TPAT).

Stock seals are stamped with "SEALED" and random start sequential numbering identification on the receiving end. Available 100 seals per package.

No.	Price / Pkg. of 100
TLS603	\$236.07

### Custom Steel Bolt Seals

Custom seals are available with stamping of your numbering sequence and wording.

To order, specify:

- Numbering sequence up to 6 digits
- Wording up to 8 spaces
- Quantity — multiples of 1000

No.	Price / Each		
	1000	2000	5000+
TLS605	\$3.08	2.78	2.66

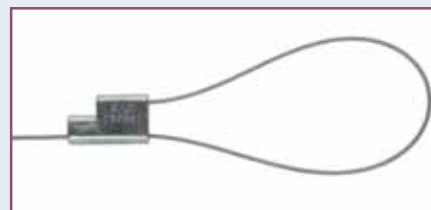

## High Security Cable Seals

*Adjustable cable pulls tight for a maximum security fit.*

Flexible, heavy-duty steel cable is strong enough to require cable cutters. Tensile strength is 1000-lbs. Cable loop is 14" long x 1/8" diameter galvanized steel wire. Both ends of cable are secured within the 1 3/4" x 1" seal body.

Cable seal is tested to ISO/PAS 17712 and complies with the sealing requirements of US Customs Trade Partnership Against Terrorism (C-TPAT).

Stock seals are printed with "SEALED" and random start sequential numbering identification on the seal body. Available 100 seals per package.

No.	Price / Pkg. of 100
TLS624	\$262.68

### Custom Cable Seals

Custom seals are available in your choice of color with printing of your numbering sequence and wording.

To order:

- Numbering sequence up to 7 digits
- Wording up to 8 spaces

No.	Price / Each		
	1000	2000	5000+
TLS625	\$3.35	3.12	2.85

Looking for another style of tag seal? Other styles of Tag Seals are available to fit your tamper-proofing situations. Please contact us and refer to part number TLS555 - specify the style and your requirements for a quote and delivery.

IDENTIFICATION TAGS Security Seal

## Self Stick Pipe Markers

*Make your mark stick onto pipes.*

Self Stick Pipe Marker is the basis for clearly identifying the pipe contents and flow direction.

The bold, single legend is printed on a contrasting background color. A separate arrow\* accompanies the marker for proper directional flow placement. The 4-mil flexible vinyl marker has a durable gloss surface to withstand light splashes, minor grease, dust, and dirt that can be wiped off. Service temperature is -20° to 140°F. The high-tack, acrylic adhesive back applies to a smooth, clean pipe surface. Simply peel off the liner, align and press firmly into place for permanent application. Look for the proper size Self Stick Pipe Marker that matches the pipes outside diameter. The pipe size range is proportional to the Self Stick size for ideal visibility.

Available each.

\*Directional Flow Arrow Tape Rolls are available (sold separately) to increase the visibility by banding around the pipe and hold the marker in place.

Stand-Off Plates available to apply labels indirectly on pipes.

For Pipe OD Size	Marker Size (h x w)	Letter Height	Arrow Marker Size	Marker Code
3/4" to 1 1/4"	1" x 8"	1/2"	1" x 1"	PA
1 1/2" to 2"	1 1/2" x 8"	3/4"	1 1/2" x 1 1/2"	PB

**How to Order Pipe Markers**

When placing your order, add pipe outside diameter letter code to the legend/material number.

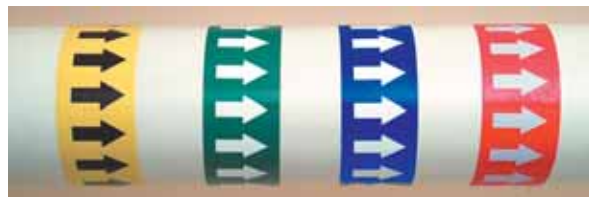

**ACID** RPS105 + **PA** 3/4" to 1 1/4" = **RPS105PA**

Price per Each **Self Stick**

Size Code — Pipe Diameter	Price
PA 3/4" to 1 1/4"	\$1.64
PB 1 1/2" to 2"	1.75
PD 2 1/2" to 6"	2.06
PH 8" to 10"	5.28

**Directional Flow Arrow Tapes**

Provide 360° visibility for flow direction with printed arrows repeated the entire tape length. 6-mil vinyl tape has self-adhesive back. Available in four standard ANSI colors. Available wound in 54-ft.rolls.

To order, add color code after the part number.

Available colors:  
 BKYL - Black/Yellow    GNWT - Green/White  
 BUWT - Blue/White    RDWT - Red/White

Size	No.	Price / Roll
1" x 54-ft.	RAW252	\$13.15
2" x 54-ft.	RAW254	15.53
4" x 54-ft.	RAW258	31.28

ASME A13.1, 3.1 "Arrows shall be used to indicate direction of flow."

### Roll Form Pipe Markers

Wrap around virtually any size pipe when you have multiple pipes or pipes of unknown sizes.

Unroll, measure, and easily cut to length on-site for proper fit. Wrapping around to itself, the 4-mil vinyl marker stays on dirty, greasy, and rusty pipes with its high-tack, acrylic adhesive back (cut to length to allow at least 1" overlap). The gloss surface repeats the legend and directional flow arrow, upright and upside-down, for universal direction and visibility from various angles.

Service temperature is -20° to 140°F.

#### How to Order Pipe Markers

When placing your order, add pipe outside diameter letter code to the legend/material number.

**ACID** **RPL100** + **PR** 3/4" letters 8" x 30-ft. = **RPL100PR**

Size Code — Pipe Diameter	Legends / Roll	Price / Roll
PR 8" x 30-ft.	65	\$66.11
PT 12" x 30-ft.	65	72.46

### Duct Markers

Mark the air flow and its equipment purpose in your duct work system.

Visible contrasting color system helps to identify and differentiate air systems. Single legend is printed on self-stick vinyl with separate arrow for proper directional flow marking. Marker has gloss surface to withstand splashes, dust, and dirt, along with high-tack adhesive back. Service temperature is -20° to 140°F. Adhere to smooth, clean, dry surface. Available each in two sizes.

For Duct OD Size	Marker Size	Letter Size	Arrow Marker Size	Marker Code
up to 6"	2 1/2" x 12"	1 1/4"	2 1/2" x 2 1/2"	PD

## Roll Tape Pipe Markers

Easily mark pipes quickly at various locations along a piping system.

Use pipe markers in continuous lengths, or tear at perforations. With 72 identical legends per roll, these markers are economical for marking pipes in lots of places. Pipe markers are 6-mil vinyl with protective laminate surface - available in 54-ft. rolls. 1" and 2" wide markers have 3/4" and 1 1/4" high letters respectively. Peel off back liner to expose self-adhesive back and apply to smooth, clean, dry pipe surface. Service temperature is -20° to 140°F.

Available in rolls.

## Medical Gas Pipe Markers

Identify the gas contents of medical gas piping systems.

Mark pipes containing medical gases as specified by the NFPA with color requirements from the CGA.

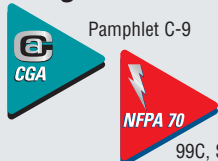

Legends are printed on 3" x 3" marker in 1/4" h characters with directional flow arrows repeated five times, upright and upside-down, for universal directional fit and visibility. The self-stick 4-mil vinyl marker has gloss surface - to withstand splashes, dust and dirt - and strong adhesive back. Peel off liner and wrap around to adhere to pipes up to 3/4" OD size. Service temperature is -20° to 140°F.

Available 20 markers per package.

Custom Medical Gas Pipe Markers, Refer to part number RPM555 and provide: gas information; character and background color; marker size; and quantity.

Stock Pipe Markers PIPE MARKERS

# Marking Tapes

Mark specific areas and promote safety by identifying potential hazard areas with visible tapes. Adhere to floors, walls, piping, posts, beams, handrails, stairways, machinery, and equipment. Tapes can be used for color-coding and identifying aisles, walkways, indoor traffic lines, danger zones, boundaries, doorways, and any other general purpose marking.

Vinyl tape is waterproof and wear-resistant, with minor resistance to acids, oils, grease, caustics, alkalis, and most solvents. Self-adhesive back applies to clean, smooth, dry surface (free of grease, oil, dust, dirt, and other grit). Unroll and easily apply tape by hand, or with the floor applicator (sold separately).

## Solid Color Tapes

6-mil solid color tapes are available in a variety of colors for multiple applications. Has aggressive, permanent, self-adhesive back. Tapes are available self-wound in rolls.

Colors meet specific industry and OSHA § 1910.144 warning requirements:

- Red for Fire Protection Equipment & Danger Hazards
- Orange for Danger Points on Machines
- Yellow for Physical Hazards
- Green for First Aid & Safety Equipment
- Blue for Machinery being Worked On
- Purple for X-ray & Radiation Hazards

Solid Colors

Colors available: Red - RD, Green - GN, Blue - BU, Gray - GY, Brown - BN, Black - BK, Yellow - YL, Orange - OR, White - WT, Purple - PR.

To order, add color code after the part number.

Size	No.	Price / Roll	Size	No.	Price / Roll
2" x 108-ft.	PTM623	\$8.57	3" x 108-ft.	PTM633	12.68
2" x 180-ft.	PTM626	13.85	3" x 180-ft.	PTM636	19.78

Color Combinations meet specific industry and OSHA § 1910.144 warning requirements:

- Yellow/Black for General, Physical Hazards
- Red/White for Fire Protection & Equipment
- Black/White for Housekeeping, Aisles, Traffic, & Passageways
- Magenta/Yellow for Radiation Areas
- Green/White for Safety & First Aid
- Blue/White for Defective Equipment
- Orange/White for Traffic and Caution

Colors available: Black/Yellow - BKYL, Red/White - RDWT, Black/White - BKWT, Magenta/Yellow - MGYL, Green/White - GNWT, Blue/White - BUWT, Orange/White - ORWT.

To order, add color code after the part number.

PTM412  
PTM414  
PTM416  
PTM418  
PTM420

## Message Marking Tapes

Use marking tape with specific message to alert others by pointing out potential hazard areas.

Bold, contrasting message is printed repeatedly on marking tape. Adhere to floors, walls, and equipment. 6-mil vinyl has clear overlaminated protective film to resist dirt, light chemicals and light abrasions. Has permanent, self-adhesive back and available in self-wound 2-in. x 54-ft. rolls.

Price / Roll
\$15.22

## Custom Message Marking Tapes

Message Marking Tapes are available with your message and symbol or logo (if required) printed repeatedly on the length of the roll.

To order: specify part number for size; message, legend, and/or symbol; tape and one print color; and quantity\*.

\*Tapes ordered in quantities less than 10 rolls are surface-printed without overlaminated film and have a liner back.

### Marking Tape Floor Applicator\*

Mark aisles, pathways and traffic lines by applying tape easily and quickly, without having to bend over, stoop, or kneel to position tape by hand.

Applicator holds self-wound marking tape roll size up to 4" x 180-ft. with 3" core diameter. Sturdy construction with handle grips and large roller wheel base to ensure smooth, straight placement of tape. Roll tape onto smooth, clean, dry surfaces.

\*Note: Use with Marking Tapes on previous page.

No.	Price
HLT300	\$139.79

### Reflective Tapes\*\*

Reflective tape is engineer-grade with 'bounce-back' reflectivity from a light source, for improved daytime, low-light and night time visibility. 5.5-mil thick urethane tapes have permanent adhesive with peel-off liner. Can be used outdoors on poles, barricades, fences, buildings, private roads, and off-road vehicles. Meets Federal Specifications L-S 300C (Reflective 1) and FP-85 (Type II). Available in rolls.

\*\*Note: Not for use with Marking Tape Applicator.

To order, add color code after the part number.

Solid colors available: White - WT, Orange - OR, Red - RD, Green - GN, Blue - BU, Yellow - YL, Black - BK

Stripe colors available: Black/Yellow - BKYL, Red/White - RDWT, Black/White - BKWT, Orange/White - ORWT

3" x 15-ft.	PTM805	24.81	3" x 15-ft.	PTM815	30.10

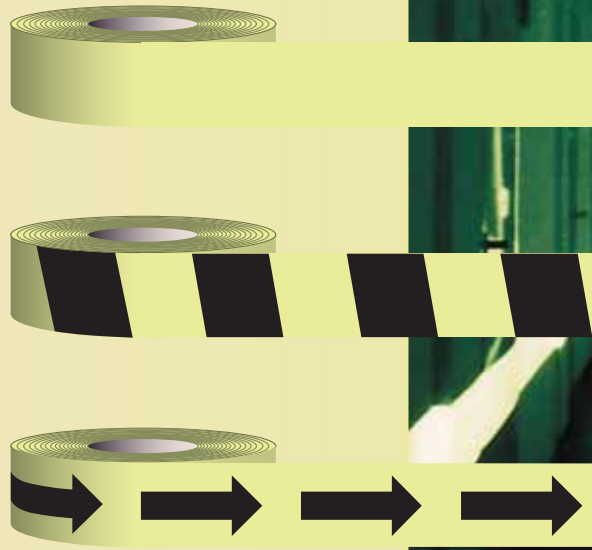

Reflective Marking Tapes are available in other widths and lengths. Order part number PTM855 and specify width, pattern, length, and quantity of rolls.

### Glow-in-the-Dark Tapes

Mark for visibility and safety in low-light and emergency blackout situations.

Photo-luminescent marking tapes glow in the dark in a green-yellow color. Mark aisles, walls, escape routes, stairwells, and exit areas, along with identify hazardous equipment and obstacles for directional safety.

The marking tape is 'energized' by any light source - the longer exposure to light, the longer glow time - and has good marking visibility in regular light with a white with slight green appearance. Made of flexible 10-mil polyester with laminated gloss surface and permanent Acrylic adhesive back with peel-off liner. Available in rolls.

Size	No.	Price / Roll
<b>Solid Color</b>

<b>Arrow Pattern</b>		
2" x 15-ft.	PTM931	28.06
3" x 15-ft.	PTM935	39.15

Glow marking tapes are available in other widths and lengths. Order part number PTM955 and specify width, pattern, length, and quantity of rolls.

# Marking Dots, Arrows, & Footprints

Visible arrows, dots, and footprints mark directional traffic paths on floors, stairways, and walls. Use them to create lanes, aisles, and escape routes. Also ideal for marking potential hazardous areas, color-coding, general identification, and other areas.

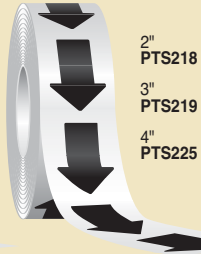

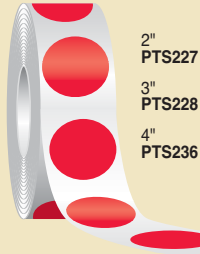

Individually die-cut shapes have aggressive, permanent, self-adhesive back. Apply to clean, smooth, dry surface. Arrows and dots are wound in rolls, while footprints are loose in a package - both styles with peel-off liner.

**Size for: Arrow is measured by width of point; Dot is by diameter; Footprint is 12" length.**

## Standard Color Marking Dots, Arrows, and Footprints

5-mil self-adhesive vinyl with removable back liner.

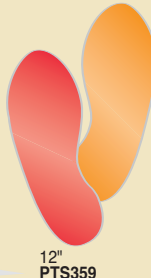

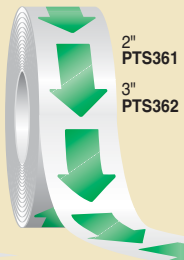

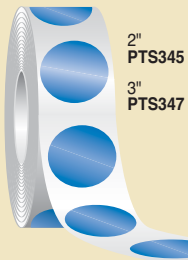

To order, add color code after the part number.  
Colors available: Red - RD, Blue - BU, Green - GN, Black - BK, Yellow - YL, Orange - OR, White - WT

Size	Qty / UOM	Price / UOM
2"	250 / Roll	\$18.38
3"	250 / Roll	22.69
4"	100 / Roll	18.42
12"	5 Pair / Pkg.	42.28

For other colors and/or sizes of marking shapes please contact us for availability and specify PTS255, shape, size, and quantity.

## Reflective Color Marking Dots, Arrows, and Footprints

5.5-mil self-adhesive urethane film with engineer-grade reflective sheeting for low-light and night-time reflect visibility. Has peel-off liner back.

To order, add color code after the part number.  
Colors available: Red - RD, Blue - BU, Green - GN, Yellow - YL, Orange - OR, White - WT

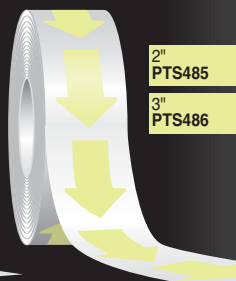

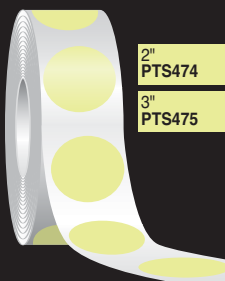

Size	Qty / UOM	Price / UOM
2"	50 / Roll	\$19.43
3"	50 / Roll	28.42
12"	1 Pair / Pkg.	18.07

For other colors and/or sizes of reflective marking shapes please contact us for availability and specify PTS355, shape, size, and quantity.

## Glow-in-the-Dark Marking Dots, Arrows, and Footprints

Lead visible and safe pathways in low-light and emergency blackout situations. Photo-luminescent marking shapes glow in the dark in a green-yellow color. Mark aisles, walls, escape routes, stairwells, and exit areas for directional safety.

The marking tape is 'energized' by any light source - the longer exposure to light, the longer glow time. Good marking visibility in regular light as well, with a greenish-white appearance. Flexible 10-mil polyester with laminated gloss surface and permanent acrylic adhesive back with peel-off liner.

Size	Qty / UOM	Price / UOM
2"	50 / Roll	\$20.38
3"	50 / Roll	29.85
12"	1 Pair / Pkg.	19.06

For other size glow marking shapes please contact us for availability and specify PTS455, shape, size, and quantity.

# Durable Marking Tapes

*Durable Stripe marking tape stays down and lasts.*

Mark clear pathways, around equipment and machinery, outline location zones and areas. Thick, yet flexible, PVC tape adheres to the surface like tape and lasts longer than any other marking tape.

Heavy-duty durable tape eliminates the cost of downtime in replacing standard marking tape, which can get scuffed, marred, ripped, and shredded in a short time\*, or having to paint marking lines which can result in fumes and mess.

Tape is two-ply 40-mil thick construction with fade-resistant color throughout the PVC material and bottom lined with poly-reinforced cloth and rubber-based adhesive. Easily install tape with minimal maintenance required. Tape is unaffected by standard cleaning and floor scrubbers. Simply peel off the back and stick down (with or without applicator). For best results, apply to clean, smooth, dry surface (free of grease, oil, dust, dirt, and other grit).

If the layout design changes, the tape can remove easily for reconfiguration - does not leave adhesive residue or rip-tear when pulling up. The changeability of this tape makes it an ideal marking tool for 5S and lean manufacturing requirements.

Tape is designed for use in dry, indoor environments at temperatures above 40° F. Available in 100-ft. rolls allow for continuous running length marking.

To order, add color code to part number:  
Yellow - YL, Red - RD, Orange - OR, White - WT,  
Blue - BU, Green - GN, Black - Black

Size	No.	Price / Roll
2" x 100-ft.	PTE102	\$195.71
4" x 100-ft.	PTE104	207.27

*\*To maintain the longevity of the installed tape, and because of its thickness, avoid pushing or dragging pallets or other heavy objects (without rollers) across the applied tape.*

## Extreme Durable Stripe Marking Tapes

Extreme durable tape is engineered with a superior acrylic adhesive. Install wet and damp conditions and cold temperatures to -40° F. Ideal for entry ways and cold storage facilities. Available in 100-ft. rolls.

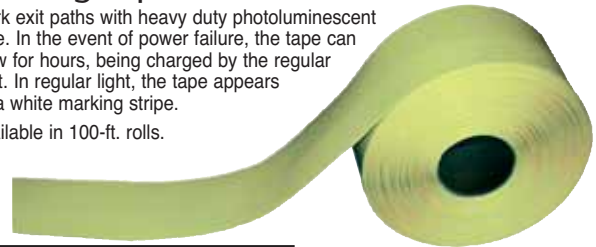

To order, add color code to part number:  
Yellow - YL, Red - RD, Orange - OR, White - WT,  
Blue - BU, Green - GN, Black - Black

Size	No.	Price / Roll
2" x 100-ft.	PTE142	\$249.19
4" x 100-ft.	PTE144	262.95

Other widths and shapes, as well as printed versions are available. Please contact us with your request and reference part number PTE555. We will get back to you with availability, quote, and delivery.

## Durable Glow Stripe Marking Tape

Mark exit paths with heavy duty photoluminescent tape. In the event of power failure, the tape can glow for hours, being charged by the regular light. In regular light, the tape appears as a white marking stripe. Available in 100-ft. rolls.

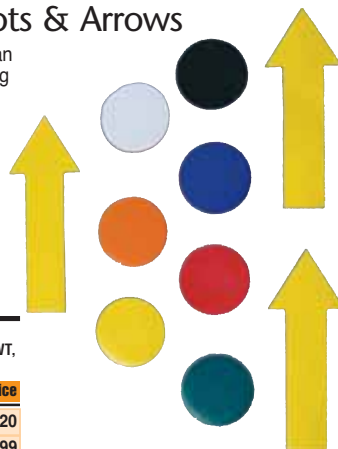

Size	No.	Price / Roll
2" x 100-ft.	PTE132	\$259.36

## Durable Marking Dots & Arrows

Durable Marking Dots and Arrows can be installed in one color or alternating color pattern in straight or non-linear configurations, as well as uneven surfaces and up high sightlines. Apply the heavy duty constructed shapes in dry, indoor environments to minimize the chance of curling and lifting.

3 1/2" diameter dot and 10" x 3 3/4" arrow are available each.

To order, add color code to part number:  
Yellow - YL, Red - RD, Orange - OR, White - WT,  
Blue - BU, Green - GN, Black - Black

Shape	Size	No.	Price
Dot	3 1/2" dia.	PTE163	\$1.20
Arrow	10" l x 3 3/4" w	PTE165	2.99

## Durable Stripe Marking Tape Applicator

Apply the Durable Stripe Marking Tape more easily and quickly without having to bend and kneel down to adhere to the floor. Applicator makes it ideal for marking lengthy aisles, pathways, and traffic lanes. Installs the tape with pressure wheel and take up wheel for the liner.

No.	Price
PTE196	\$1691.53

## Wall Mount Retractable Belt Tape Barriers

*Pull to extend belt tape from the wall for a barrier.*

Surface-mounted belt tape barriers are ideal for permanent but flexible retractable barrier without taking up any floor space — especially when portable posts are not appropriate. 2" wide polyester belt tape retracts into case with integrated mounting plate. For indoor use.

Available in three belt tape lengths.

### 7 1/2-ft. Belt Wall Mount Unit

4 5/8" h x 2 1/2" w with 4 1/8" x 2 3/4" mounting plate.

### 15-ft. Belt Wall Mount Unit

5 3/4" h x 3 3/4" w.

### 24-ft. Belt Wall Mount Unit

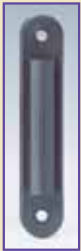

6" h x 4 3/4" w.

Case Color	No.	Price
Black	PRB200	\$104.35
Chrome	PRB205	107.44

Case Color	No.	Price
Black	PRB212	\$119.07
Black & Yellow	PRB214	119.07
Black & Chrome	PRB216	124.43

Case Color	No.	Price
Black	PRB233	\$246.15
Black & Yellow	PRB235	246.15
Black & Chrome	PRB237	279.60

### Wall Mount Receiver End

When the end of the belt tape is the wall, mount this piece to connect the end of the belt tape into its locking receiver point.

No.	Each
PRB190	\$13.39

*Other Belt Tapes are available in various colors with cases shown. Contact us for details — reference part number PRB255 for a quote and delivery.*

### Solid Color Belt Tape

To order, add color code to part number:  
Black — BK, Yellow — YL, Red — RD, Blue — BU

### Black with Center Stripe Belt Tape

To order, add color code to part number:  
Black with White stripe — BKWT,  
Black with Yellow stripe — BKYL, Black with Red stripe — BKRD

## Rack Mount Retractable Belt Tape Barriers

*Extend belt tape from the end of a storage rack.*

Mount onto storage racks in warehouses, factories, and stock areas. Extend the belt tape to 'warn' the aisle is closed off or access is restricted — such as when stock is being moved around with warehouse vehicles.

Mount the unit to vertical rack support with choice of dual clamp for semi-permanent installation, or hook & magnet for quick install and removal — ideal for portable use throughout the rack area.

When extended, the 2" wide polyester belt tape end has a S-Clip to wrap and secure around the opposite rack support.

Available each in black case with diagonal yellow and black striped belt tape.

Dual Clamp Mount

Hook & Magnet Mount

Belt Length	Dual Clamp Mount		Hook & Magnet Mount	
	No.	Each	No.	Each
15-ft.	PRB260	\$133.79	PRB262	168.55
24-ft.	PRB267	259.51	PRB269	295.63

*Other belt tape colors are available. Contact us for details - reference part number PRB265 for a quote and delivery.*

## Safety Post & Chain

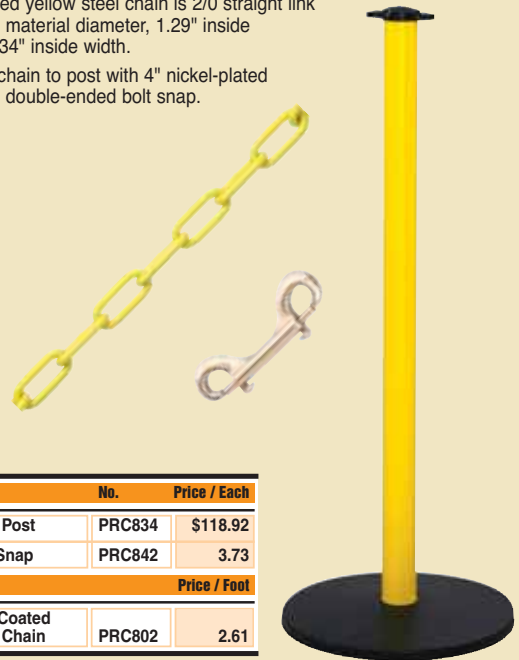

*Set out a sturdy post and chain system that stays in place.*

Steel Posts and steel chain together create a strong durable system for controlling pedestrian traffic and directional pathways. Coated in bright yellow the posts and chain are a very visible barrier system for indoors and lasting outdoor use.

Powder-coated yellow steel post is 2" diameter x 34" high, with 13 1/2" diameter base - covered with black ABS plastic for added durability. The black top has a forged universal loop.

Poly-coated yellow steel chain is 2/0 straight link coil - .18" material diameter, 1.29" inside length x .34" inside width.

Connect chain to post with 4" nickel-plated cast zinc, double-ended bolt snap.

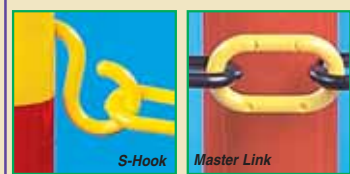

Item	No.	Price / Each
Steel Post	PRC834	\$118.92
Bolt Snap	PRC842	3.73
<b>Price / Foot</b>		
Poly-Coated Steel Chain	PRC802	2.61

# Plastic Chain & Post Barriers

Set up a barrier quickly and economically with plastic chain and stanchion posts. The chain hangs between a series of stanchion posts for crowd control and guiding pedestrian traffic. The all-plastic components will not rust or corrode. Good for limited outdoor use.

## Chain Links

Lightweight, yet remarkably strong, polyethylene plastic. Each link is 2" x 1" x 1/4". Available in solid colors and alternating color chain that changes color every two feet. Chain can be cut to your required length (*maximum continuous length is 500' except Glow Chain being 164'*). Available per foot.

### Accessories for Chain Links

**Master Link** — Permanently joins separate lengths of chain to give a seamless look. Available each.

**S-Hooks** — Open ends to quickly link and unlink separate lengths of chain. Available each.

When ordering, add the color code\* after the part number and specify length.

Style	No.	Color Code*	Price / Per Foot
Standard	PRC202	WT, YL, BK, RD	\$1.32

## Stanchion Posts

Impact-resistant polystyrene plastic has top slot for placement of chain then ball top for keeping chain in place. The polyethylene base is hollow and can be filled with gravel, sand, or water for added stability.

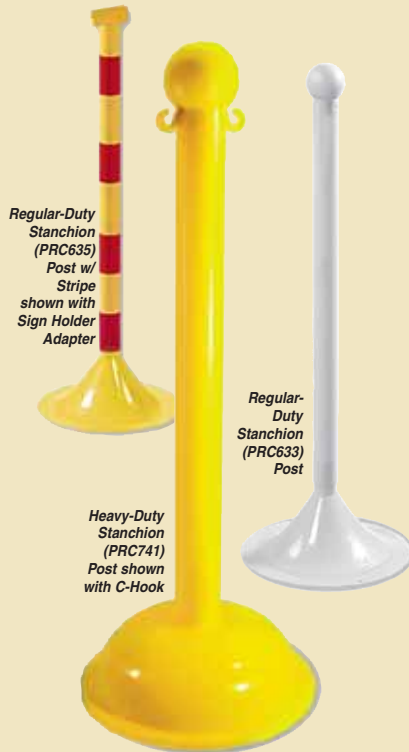

Posts are available in Solid colors and Black with White ball top, Stripe colors can be added to the post section. Specify stripe color when ordering.

### Regular-Duty Stanchion Posts

2" diameter x .060" wall post with 3" diameter ball top and 14" diameter base.

### Heavy-Duty Stanchion Posts

3" diameter x .080" wall post with 4.5" diameter ball top and 16" diameter base.

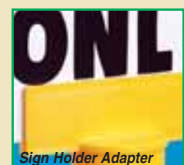

To order, add the post color code* after the part number. ** Available Post Colors* - WT, YL, BK, BKWT			Post with Stripe — After adding the post color code* to the part number, specify the stripe color when placing your order.

# High Performance Barrelcade

WITH 25 lb. RECYCLED RUBBER BASE

Drum is 36" high and a minimum of 18" round. Built in carrying and dragging handle with 2 mounted holes for optional barricade lights. Tapered design allows easy stacking with or without barricade lights. Drum and base remain together till impacted or separated for transportation. Available in 25 lb or 40 lb 100% recyclable rubber base. Also available in sand filled base.
